General Information about Bowers and Ruddy Galleries, Inc. — Terms of Sale

Welcome to the latest issue of the "Rare Coin Review." We think you'll enjoy being a Bowers and Ruddy Galleries client. Since 1953 we've helped build many of the finest collections ever assembled. Whether you want a \$5 coin, a \$500 coin, or even a \$50,000 coin we can help you.

We pride ourselves on the quality of the coins we deliver. If you're an advanced numismatist or a dealer, as most of our customers are, then you can appreciate what an important difference quality makes. If you're a new collector, then be sure to compare quality when comparing price — for a comparison of one without the other is absolutely meaningless. If your emphasis is on quality you've come to the right place!

The directors of the firm (James F. Ruddy, Nancy Ruddy, and Q. David Bowers) are members of the International Association of Professional Numismatists, the Professional Numismatists Guild (Q. David Bowers is a director of the PNG; James F. Ruddy is recipient of the PNG Distinguished Service Award), the American Numismatic Association (life members 336 and 337), the Royal Numismatic Society (London), the American Numismatic Society, and other leading organizations.

James F. Ruddy is author of "Photograde," the standard guide to coin grading. Jim Ruddy has been honored by many numismatic organizations and has participated in many important numismatic research discoveries to be published in recent decades.

Q. David Bowers is author of many books, including the best-selling "Coins and Collectors", and writes regularly for "Coin World," "Numismatic News," the "Encyclopedia Americana," and other publications.

Bowers and Ruddy Galleries, Inc. has handled many of the most important coins and collections sold in America and Europe since our founding in 1953. Today we have the largest and most comprehensive stock of choice and rare coins in the hands of any dealer in the world.

Our affiliated firm, the American Auction Association, Inc., is well known for its fine quality auction sales. These sales are catalogued by Q. David Bowers, James F. Ruddy, Karl Stephens, and other numismatists on our staff.

It has been our pleasure to have supplied choice coins to dealers, collectors, and museums worldwide. It would be our pleasure to include YOU among our many satisfied customers. We're "your friends in the rare coin business" — and we think you'll really enjoy doing business with us.

Rare Coin Review

Coins for the discriminating numismatist . . .

Rare Coin Review No. 18 Aug.-Sept 1973

The Ray Collection

Recently we've added hundreds of thousands of dollars worth of choice and rare United States and world coins to our stock. Featured in this issue of the *Rare Coin Review* are coins from the fabulous Ray Collection, an old-time grouping assembled many years ago.

The present *Review* issue is the most comprehensive we've ever issued. We think you'll find many really *great* values listed!

The Recent Coin Market

We have been in the rare coin field since 1953. Never have we seen such an intense interest in coins as we've experienced during the past several months. The market has been strong, and prices have been rising. Our past issue, *Rare Coin Review* No. 17, was obsolete within a month or so of its release. Virtually every participant in our popular Collection/Investment Plan can show a nice profit on his portfolio if he has been with the program for a year or so — despite the fact that “traditionally” we recommend that a period of several years is best to show an attractive appreciation in value.

Our sale (held by the American Auction Association) of the Armand Champa Collection, a sale which took place last year (May, 1972), featured record-breaking prices which made headlines in major numismatic publications at the time. Now, a glance through the Champa Collection catalogue reveals what are incredible bargains at today's price levels. Chances are good that the many price records set in our more recent (May, 1973) Terrell Collection sale will be bargains in the future as well.

“What do you think of the coin market?” is a question asked of us nearly every day. “Why have prices risen so much during the past year?” is probably the second most popular question. We'll answer these here.

There is no one single factor which has made the coin market so strong. This is good, for it means that there is a certain built-in stability should one of the several factors weaken. Unlike past “bull markets” in coins, the present market is not *speculative*. There are no dealers, investors, or others who are methodically buying up certain issues and holding them in quantity. Rather, the market is broadly based and is comprised of many thousands of individual buyers who are acting independently of each other.

Special Offer This Issue!

Our **SPECIAL OFFER** this issue is an especially outstanding value: a beautiful Brilliant Uncirculated 1945-S wartime nickel for just 50c with any order of \$10 or more from this issue of the “Rare Coin Review.” This is less than half of the coin's wholesale value! (Reference: June 22, 1973 issue of “The Coin Dealer Newsletter” which states that dealers are **PAYING \$43** per roll of 40 pieces — or over \$1 per coin!) The 1945-S nickel is of special interest as it is made of silver alloy and has the large “S” mintmark over the dome of Monticello.

As the special price of 50c is way below wholesale, we make the following limitations: (1) Just one coin per customer. (2) Offer limited to the number of coins we have on hand — so order early! Request “1945-S Nickel Offer” when ordering and add 50c to the total of your order.

“Your friends in the rare coin business”

Here are some factors which have influenced the strong upward movement of coin prices during recent times:

(1) The market has expanded. More collectors, investors, and dealers have joined the numismatic field. As the supply of older coins remains static, the inevitable result is an increase in prices. Far from being a rich man's hobby, numismatics is a democratic pastime and appeals to people from all walks of life. As the standard of living improves, more and more buyers enter the field. It is not unusual today for an American citizen with an average income to buy a motor home, power boat, or even a vacation cottage or home. Likewise, it is not unusual for him to buy a \$500 or even a \$5000 coin. Years ago such expensive pieces were usually purchased only by successful professional people and businessmen. Today the market is much broader. Added to this is the consideration that the standard of living is rising in other countries as well, resulting in a broadly-based demand by citizens of Japan, Germany, Britain, Italy, and other economically progressive lands.

(2) Relative price levels of coins are low. Recently a specimen of the well-known 1918 24c stamp with the airplane inverted sold for \$37,000. Several years ago a rare British Guiana stamp fetched in excess of \$300,000, with the buyer (our friend Irwin Weinberg of Wilkes-Barre, Penna.) indicating he would have paid substantially more if necessary. In the field of coins \$37,000 is a rarified atmosphere, and only a handful of coins have ever sold for more than this amount. There are 100 specimens known of the aforementioned 24c stamp. Had this stamp been a coin, chances are the price level would have been in the \$5000 to \$10,000 range. No modern coin of which about 100 pieces are known has ever sold for \$37,000 or even remotely near it. All of this points out that coin prices have a great potential.

Coins which have been valued at \$50,000 to \$100,000 within the past two years (no coin has ever been sold for more than \$100,000, to our knowledge) include: 1804 silver dollar \$80,000 (about 15 known), 1907 extremely high relief \$20 gold \$100,000 (about a dozen known), 1913 Liberty

nickel \$100,000 (5 known), 1894-S dime \$50,000 (fewer than 10 known), 1838-O half dollar \$75,000 (fewer than 10 known), and the 1927-D \$20 gold \$65,000 (fewer than a half dozen known). Clearly, the "rarest of the rare" in the United States coin series are bargains in comparison to our sister field, stamp collecting.

Compare coin prices (or stamp prices too, for that matter) to the field of art, and the potential for price appreciation is even more dramatically illustrated. A rare painting has sold for over \$5,000,000, and a number have broken the \$1,000,000 mark. For a painting to sell for "just" \$100,000 (the highest sale price ever recorded for a rare coin) would be humdrum news and probably would attract no attention at all in the art market!

Often buyers of major coin scarcities and rarities are cognizant of other collecting fields as well, and the knowledge that coins are underpriced is not lost on them. Hence, there is a *value concept* in the coin market at present. Coin price levels, even taking into consideration recent advances, are still very low on a relative basis.

(3) Favorable comparison of coin investment to other investment fields. Investment in choice and rare United States coins and coins of the world has been extremely rewarding to those who have participated over the years. Many investors have been disillusioned with the securities market, real estate, and other fields and have turned to coins. Indeed, compared to popular statistics and averages in other fields, coins have done spectacularly well.

This has caused many people to consider coins as an investment per se (as opposed to the historical and hobby aspects of coin collecting). We have always recommended that coin buyers become involved with the numismatic aspects of coins and take the time to learn about them, but the fact remains that there are many buyers who are investing solely for the sake of investment. Undoubtedly they will do well, especially if they buy from a reputable, experienced numismatic firm. Undoubtedly they will do *very well* if they both learn about coins *and* buy from a reputable, experienced numismatic firm.

Profit-sharing programs and pension firms are beginning to realize the investment potential of coins. *Business Week*, to mention just one of many publications, has had very favorable articles on coin investment in recent months. The investment aspect of coins is attracting the attention of money managers and investment counselors all over the world.

(4) Inflation. Inflation seems to be a fact of life in America and in many other countries as well. Choice

SUBSCRIPTION INFORMATION

Price of this catalogue: \$2 per copy to U.S. addresses; \$3 elsewhere. A subscription to the next six issues of the Rare Coin Review PLUS all auction catalogues and prices realized lists issued by the American Auction Association during that time is:

To U.S. addresses by surface mail: \$10.00

To foreign addresses by surface mail: \$15.00

To U.S. or foreign addresses by air mail: \$25.00

Due to the cost of producing our large illustrated catalogues we do not make a profit on the subscriptions. For this reason subscriptions are solicited only from active collectors, dealers, and investors — as each must "pay its way" by going to an active buyer.

and rare coins have consistently outpaced inflation and have been a superb hedge against it.

(5) The international aspect. America is no longer an isolated country. When we went to Europe in the early 1960's it was an exciting event for the fellow dealers and collectors we visited there. Now travel around the world is commonplace. What goes on in the coin market in London or Zurich is followed with avid interest. No longer is the situation remote. Indeed, the Swiss banking system has been more in the news during the past year than has the American banking system!

The market for coins is truly international. We don't mean that American citizens buy American coins, British subjects buy British coins, and Germans buy German coins. Rather, Americans avidly collect coins from all countries, and citizens of other countries do likewise. One of the major buyers for *American* silver dollars in the recent Terrell Collection sale was a leading dealer from *Japan*. Recently we sold a major California territorial gold rarity to a dealer in Germany and a large group of U.S. commemorative half dollars to a dealer in Italy.

The collector or investor buying United States coins or coins of the world has a truly international demand for his coins when the time comes to sell them. Devaluations of the U.S. dollar, which have happened several times in the past year, have just increased the demand more.

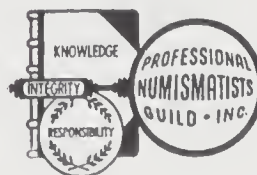

(6) Limited availability. Rare coins are just that: they are *rare*. As we noted earlier in this discussion,

the supply of older rare coins is static, and as the demand increases, the prices increase also.

Buyers are now becoming more educated and the coin market is ridding itself of vendors of misdescribed and counterfeit coins. Two years ago it was possible, for example, to have a most peculiar situation: Reputable dealers (such as members of the Professional Numismatists Guild and/or the International Association of Professional Numismatists) would advertise, for example, an Uncirculated coin in the \$150 range, or an example of the same coin would bring \$150 at auction. Allowing for normal variances in the coin market and for individual pricing, the same piece might be offered by different PNG or IAPN members for, say, \$145, \$149, \$150, and \$155. At the same time a similar coin might be advertised for sale by an unethical dealer for, say, \$60, with the come-on of "why pay more?" In the coin field, just as in other walks of life, you get exactly what you pay for. "There is no Santa Claus in numismatics," Lee Hewitt, well-known publisher, has said many times. How is it possible that a \$150 coin could be advertised for \$60? The "secret" was that certain "dealers" (we use the term loosely here) were selling "whizzed" or "processed" lower grade coins as "Uncirculated" or even "gem Uncirculated." The American Numismatic Association met the problem head-on last year and declared that any ANA member who engaged in such practices would be expelled. As a result, the problem of "processing" has dwindled. It is still not solved completely, but the problem is only a fraction of what it once was.

What does all of this have to do with coin investment? Well, according to Gresham's well-known law, the bad drives out the good. In the instance of our \$150 coin, the buyer of this coin might hesitate, or at the very least feel "uncomfortable" about buying it, if he saw another advertised for just \$60. After all, it would be foolish to pay \$150 for a \$60 coin. This had a dampening effect on the upward rise of prices.

Also the "processing" of coins distorted the supply situation. Many coins are extremely rare in higher grades. If three out of five "Brilliant Uncirculated" Barber half dollars advertised were really "processed" lower-grade coins, then the supply of BU pieces would ostensibly be larger than it really is. The supply of "BU" pieces increased as the processors took EF and AU pieces and treated them. The demand for BU pieces was increasing, but the supply was also!

Now that the "processors" of coins have largely been put out of business, or at least their activities have been exposed, the true rarity of certain coins is becoming realized — and this has had an uplifting effect on coin prices.

(7) Sentimental and artistic considerations. The trend toward collecting all sorts of antique things is growing. The field of collectibles is experiencing a great increase in interest. Coins are historically significant and are very fascinating to collect. It is easy to become involved with the history of a coin. Indeed, at Bowers and Ruddy Galleries we have always encouraged our customers to learn about coin history — for these pieces have many tales to tell. As you know, our sale catalogues are oriented toward making coin collecting and investment *interesting* as well as profitable for you. As a field for collecting enjoyment, coins have a lot to offer. They can be stored conveniently in a small space, can be easily studied, and information about them can be exchanged with fellow collectors all over the world. Investment aspects aside, the collecting of coins is an absolutely fascinating pursuit. To the intelligent and inquisitive mind numismatics offers a great reward.

(8) There are many other considerations as well. In fact, we're now writing a book on the subject of coins as an investment, and we go into many interesting sidelights on the subject. The appeal of gold metal throughout the history of mankind and the historic value of silver have added to the desirability of coins

made of those metals. The fact that coins can be collected privately without government intervention and without one's neighbors knowing the value of one's holdings is another factor. And we could list many, many more.

As leading dealers in the coin field we've known for a long time the value of coins as an investment, and many of our clients over the years have made tremendous profits by buying from us. Now that countless thousands of new collectors and investors are coming into the field, the rewards which have been possible in the past should continue, but perhaps with even more vigor.

Some Investment Guidelines

In our last issue we editorialized a bit on coin investment, so we won't cover the same ground here again. We will, however, repeat three guidelines which we think will contribute to your investment success:

1. Learn as much as you can about coins. The more you know about coins, the greater are your chances for success in the coin market. Think of coins not only as a monetary investment but as an investment in history and pleasure as well. Coins afford great pleasure of ownership and pride of possession. Take maximum advantage of this and *enjoy* your coins.

2. Buy the best quality you can afford. If possible, try to formulate your budget plans before making any major purchases. If you eventually want, for example, a collection of Indian cents in Extremely Fine grade, it is more economical to start out by buying five or ten EF pieces than by buying several dozen Good or Very Good coins and replacing them later.

3. Do business with an established dealer; a dealer such as ourselves. In this way you can be sure of obtaining the quality and value you pay for. In this way you can be sure of guaranteed authenticity. Compare both price and quality when making a purchase decision. Quality is never cheap, but attention to quality pays for itself when the time comes for you to sell your collection.

Highlights of This Issue

This issue of the *Rare Coin Review* contains many choice, rare, and beautiful coins — not to mention countless inexpensive pieces. You'll find major rarities such as cents and half cents of 1793, the 1796 quarter in several grades, the elusive 1797 half dollar, the highly prized 1895 Proof Morgan dollar, the exceedingly rare 1817/4 and 1838-O half dollars, a splendid 1861-S Paquet double eagle, and many others. You'll also find many pieces priced from under \$1 (our Special Offer of a 1945-S BU nickel for just 50c, for example) to \$100 or so.

Our "Miscellany" section, always interesting and value filled, is even more extensive than usual — for as we were ready to go to press with this issue we acquired a large group of scarce pieces which we include there.

Coins of the world are divided into three sections: general coins of the world, including minor issues, crowns, patterns, and other pieces of interest; gold coins of the world; and Proof sets of the world.

Our world coins section, nearly a complete sellout in our last issue, is even larger and better this time! There are many, many scarcities and rarities to choose from. The market for world coins is very active — and, as might be expected when coins are priced attractively, most of our larger orders have gone to other dealers. So, if you're a dealer, you'll find many great buys. If you're a collector, the values will be proportionately even better!

If the investment aspects of coins interest you most, then be sure to read all about our Collection Investment Plan. This is an easy way to build a choice and meaningful group of rare coins with emphasis on price appreciation in coming years.

We hope you'll enjoy some of the editorial features in this *Review* issue. Well-known numismatic authority Maurice M. Gould has written for us an article about United States colonial coins. An article about Q. David Bowers, originally from the "Who's Who in the Hobby" feature of *Numismatic News*, is presented, as is a report on the Terrell Collection Auction sale.

A Few More Words

If you are an old timer with us (and there are many *Rare Coin Review* readers who have been doing business with us since we started buying and selling rare coins back in 1953!), you know the quality to expect. If you're new to our family of customers and if this is your first issue of the *Review*, then a few comments may be of interest:

The rare coin business is one of the most competitive fields there is. No one, yourself included, has to order from us — there are thousands of other dealers with coins for sale. And yet our business grows steadily year after year. We have built what we believe is the world's largest and finest inventory of rare early United States coins and are working towards building one of the finest stocks of world coins as well.

What is the secret of our success? The answer is quite simple: we deliver what we consider to be the best QUALITY and VALUE in the coin field today — and, importantly, our customers agree! When you compare price, compare true quality as well. We

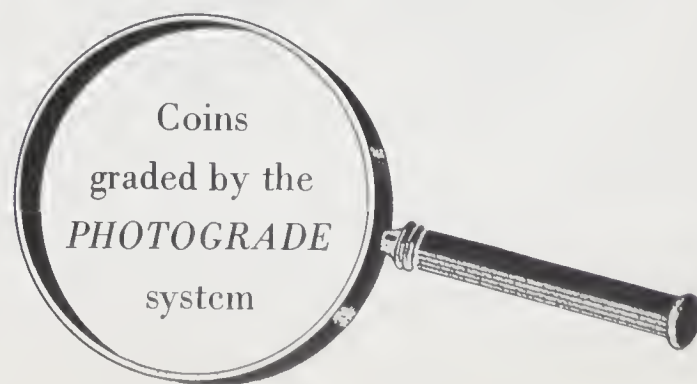

invite you to do some "comparison shopping" on your own — and we're confident that we will emerge as the winner!

The professional experience of James F. Ruddy, Nancy Ruddy, Q. David Bowers, John Murbach, Karl Stephens, Jr., Judy Cahn, and the other numismatists on our large staff is your guarantee of quality. You'll like our service, too. All coins ordered from this *Review* will be sent to you postpaid to U.S.A. addresses, and for a nominal fee to overseas addresses.

Any item may be easily reserved by telephone if you wish. For an order for \$200 or more, telephone us collect from anywhere in the U.S.A. For an order of U.S. coins ask for Nancy Ruddy or Judy Moran; for coins of the world ask for Karl Stephens, Jr. or Judy Cahn.

Selections from the Ray Collection plus other important new purchases added to our stock await your consideration. Check this issue carefully and pick out those Special Pieces that will be just right for your collection. We look forward to hearing from you by telephone or letter soon!

United States Coins For Sale

UNITED STATES COLONIAL COINS

We offer a choice selection of United States colonial coins for sale—issues of colonial times, issues of the various states, pieces honoring President George Washington, and related pieces.

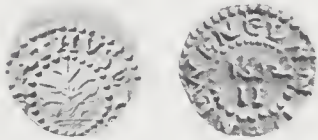

For a basic reference library on the subject of colonial coins we recommend: "A Guide Book of U.S. Coins" (\$2.50 postpaid), and "Scott's Comprehensive Encyclopedia of U.S. Coins" (1971 edition, the only issue ever published, is available for the discount price of \$9.95 [instead of \$15] while copies last) which has a detailed listing of colonial varieties and which is a "must" for the advanced collector. The prices are now obsolete in many instances, but the historical information is of great value. We also recommend a monograph, "Copper Coins of Vermont," available from us for \$1 postpaid.

"The Colonial Newsletter," published on a non-profit basis several times a year by James C. Spilman (address: Box 4411; Huntsville, Alabama 35802) provides news on recent discoveries, technical data, collecting news, etc. A free sample copy will be sent to you on request if you write to Mr. Spilman.

This issue of the "Rare Coin Review" offers many interesting colonial pieces. Take advantage of it and add to your present collection—or begin a new collection of these fascinating pieces. All coins offered here are guaranteed genuine.

Colonial coins are very low priced in many instances in comparison to later United States issues. In our opinion the purchase of colonial coins represents a wise investment as well as a fascinating numismatic pursuit.

Telephone us to reserve it! 395.00

Elephant Tokens

(1694) Elephant token. Thick planchet. GOD PRESERVE LONDON legend. Interesting and popular issue. The elephant was a popular animal during the 17th to 19th centuries, and the exhibition of one of these always caused great excitement. The use of this ponderous beast as the motif of this coin undoubtedly aided in its popularity. Very Good \$69.00; Fine \$79.00; VF-EF \$129.00; Extremely Fine \$239.00; EF-AU \$269.00; AU, rarely seen or offered for sale in such choice condition. \$349.00; Lustrous brown Uncirculated. Very few of these better-grade pieces exist in proportion to lower-grade specimens. This present listing offers a remarkable opportunity to acquire some very choice early colonial coins. This Uncirculated Elephant token: 495.00

"A WONDERFUL EXPERIENCE"

"Doing business with Bowers and Ruddy Galleries has been a wonderful experience. I am used to having to be careful as I go along and to 'fight my way' in order to get at least a reasonable percentage of my money's worth. I am used to receiving all sorts of misleading advice depending upon what a particular dealer has for sale. With Bowers and Ruddy Galleries this is not so. Your firm is wonderfully different; a numismatic dream come true. I can readily see why you have been so successful over the years and why you will be successful in years to come. If you treat your other customers just half as well as you have treated me you will get all the business you can handle." — an unsolicited comment from F.M.H. of New York City, New York.

Copper Coins of Vermont

We present an attractive selection of Vermont Copper coins. All pieces are attributed to Richardson/Ryder numbers. The Richardson monograph, *The Copper Coins of Vermont*, is available from us for \$1 postpaid. This booklet is quite interesting, and it is an excellent way to gain familiarity with the coins of the Green Mountain state.

Vermont pieces are among the most fascinating of all state coins. There are enough major varieties—the sun-over-mountains design with its VERMONT, VERMONTIS, and VERMONTENSIVM spelling variations, the Baby Head, and the curious BRITANNIA are examples—to make an interesting type set. A synopsis of Vermont pieces can be found on pp. 22-24 of *A Guide Book of U.S. Coins*.

We are always interested in purchasing Vermont coins for our own stock, so please keep us in mind in this respect.

- 1785 Vermont. Ryder-2. Sun-over-mountains design with VERMONTIS spelling. Abt. Good \$29.00; G-VG \$69.00; Very Good \$109.00; Fine \$159.00; Very Fine, rare in this high grade \$425.00; VF-EF, very rare in this even higher grade 575.00

- 1785 Vermont. Ryder-4. Sun-over-mountains motif. VERMONTIS spelling. VF-EF, with small planchet defect (as is common on all Vermont issues). An excellent value for just 249.00

- 1786 Vermont. Ryder-6. Sun-over-mountains style. VERMONTENSIVM spelling. Abt. Good \$23.00; G-VG \$49.00; Very Good \$69.50; Fine \$125.00; Very Fine, some usual planchet defects

\$149.00; Very Fine \$295.00; Extremely Fine, weakly struck in areas. Guaranteed to satisfy, as are all coins we list here 195.00

- 1786 Vermont. Ryder-7. Sun-over-mountains type with VERMONTENSIVM spelling. Good \$37.50; Abt. Fine \$89.50; Very Fine \$295.00; beautiful VF-EF \$495.00; Sharp Extremely Fine. Vermont coins are rarely offered in such beautiful condition! 795.00

- 1786 Vermont. Ryder-8. Sun-over-mountains style as preceding. VERMONTENSIVM spelling on the obverse. Abt. Good \$29.00; VG/G \$59.00; Abt. Fine \$99.00; Fine \$135.00; F-VF \$195.00; VF 395.00
 1786 Vermont. Ryder-9. The popular Baby Head variety. Abt. Good \$75.00; Fine, but retooled long ago to strengthen certain design features \$99.00; G-VG 139.00
 1786 Vermont. Ryder-11. Bust left variety. Abt. Good \$29.00; Very Good \$99.00; Fine, rough planchet (as usual for Ryder 11; 95% of all known specimens are struck on flaked, striated, or otherwise less than perfect planchets) 159.00
 1787 Vermont. Ryder-12. Bust right. Fine 79.50

- 1787 Vermont. Ryder-13. The curious and interesting BRITANNIA variety. This coin, struck at Capt. Thomas Machin's private mint on the shores of Orange Pond, near Newburgh, N.Y., bears a Vermont design for the obverse. The reverse is from a worn discarded die used to make a counterfeit British halfpenny (making imitation British coins was apparently the main activity of the Machin mint). The two dies were apparently inadvertently combined to produce the illogical Vermont/BRITANNIA issue. Good \$22.00; Very Good \$39.00; Fine \$69.00; VF-EF (note: grading is always by the obverse only on R-13, for the reverse is nearly smooth on all—due to the original use of a very worn die) \$149.00; Extremely Fine Rare in this grade . 349.00
 1787 Vermont. Ryder-14. Bust right. Abt. Good \$15.00; VF ... 99.00
 1788 Vermont. Ryder-16. Bust right. Good, planchet defect \$16.00; G-VG \$27.00; Fine \$69.00; Very Fine, a nice coin for a type set of colonial issues 99.00

- 1788 Vermont. Ryder-17. Fine. Scarce in this condition 295.00

A SHORT COMMENT

"I have been pleased with all of the coins I have bought from you in the past." — an unsolicited comment from J.L. of Galesburg, Illinois.

- 1788 Vermont. Ryder-20. Bust right. F-VF 99.00
 1788 Vermont. Ryder-21. Bust right. Fine 99.00

- 1788 Vermont. Ryder-22. Very Fine. The Richardson plate coin used to illustrate R-22 in the Richardson monograph. A prize coin for the Vermont specialist 325.00

- 1788 Vermont. Ryder-23. Bust right. Good \$36.00; Very Fine \$165.00; VF-EF, ex. Ron Gillio collection 275.00
 1788 Vermont. Ryder-24. Bust right. Obverse with crosses after legends as: VERMON+ AUCTORI+. Very Fine \$149.00; Another Very Fine, this one struck 10% off center (while planchet defects are common among Vermont pieces, striking errors are not; off-center strikes among these issues are scarce) 149.00
 1788 Vermont. Ryder-25. Bust right, AUCTORI+ VERMON+ style as preceding (this same obverse die was used on R-24, R-25, and the rare R-26). Good \$26.00; Very Good \$45.00; Abt. Fine \$57.00; Very Fine 149.00
 1788 Vermont. Ryder-27. Obverse with stylized bust of George III (but with Vermont legends) as found on certain 1788 Connecticut cents. Reverse with legend punctuated by stars: INDE*ET LIB*. Very Good \$47.50; Abt. Fine 69.00
 1788 Vermont. Ryder-29. Bust right. Good. Obverse with characteristic weak striking and with angular die break from rim, across forehead, and through R of AUCTORI. Very scarce in all grades. From the collection of Ted Craig 185.00

- 1788 Vermont. Ryder-31. GEORGIVS III obverse. Reverse with cross after INDE+ and LIB+. Obverse is attractive Very Fine grade. Reverse is Good. This disparity in grading is usual and is due to the difference in relief and die detail originally possessed by the dies. The obverse die is in deep relief; the reverse weak at the center and in shallow relief. A prize specimen of Ryder-31; one of the finest we have seen or owned 495.00

Connecticut Copper Coins

Consider collecting Connecticut copper coins! These pieces are interesting to collect and are quite inexpensive in comparison to many later United States issues. A general description of Connecticut coins begins on page 27 of the *Guide Book of U.S. Coins*.

There are several ways to collect Connecticut coins. Perhaps the most basic is to form a type set — a set which contains one each of the

different styles illustrated in the *Guide Book* on pages 27 to 30. It is interesting to note that there are no tremendously high priced pieces — in fact, most pieces are in the range of \$10 to \$50 each in Good condition.

In our *Rare Coin Review* No. 15 we offered Connecticut copper coins by die varieties attributed to dies classified by Henry Miller's *State Coinage of Connecticut*. For an introduction to Connecticut pieces and a more detailed description of them we refer you to that *Review* issue, a copy of which we can supply for \$2 postpaid. If you're presently interested in Connecticut cents and have made a start toward collecting them, then we recommend our specialized listing in *Review* No. 15 to you. Many, many pieces in that listing have been sold, so be sure to include ample extra choices!

If you're interested in Connecticut copper coins and don't own any yet and would like to start, then we present a plan which has been very, very popular:

Connecticut Starter Sets

Send us \$100, \$250, \$500, or \$1000 and we will pick out a Starter Set for you. We'll give you a really good deal: we will pick out an interesting array of Connecticut cents, including at least one from each of the four years in which Connecticut cents were minted: 1785, 1786, 1787, and 1788 — and we'll give you a 20% discount from our regular price! In other words, if you send us \$100 you will receive at least \$125 worth of coins, if you send us \$250 you'll get at least \$300 worth, and so on proportionately.

And, as a bonus we'll include free of charge a copy of the previously mentioned *Rare Coin Review* No. 15 (a \$2 value) on request. Please request this specifically, for if you already have one it would be redundant to send you another—especially when our supply of these issues is quite limited.

GUARANTEE: The Starter Set offer is covered by our usual money-back guarantee: if you are not 100% delighted with the coins received, just return them within a week of receipt and we'll send you an instant cash refund in full. If you don't find the pieces to be fascinating or if they fail to please you for some other reason, return the coins and we'll both forget about the whole thing! So, you aren't taking a chance at all!

On the other hand, your shipment of Connecticut cents may well open a new collecting door for you. You may find the series exciting and a lot of fun to study and collect. If so, we've accomplished our purpose. As a matter of interest we mention that Robert Vlack, prominent authority in the colonial field and author of the well-known *Early American Coins* book, began his interest in colonials by ordering a starter set of Connecticut coins from us fifteen to twenty years ago!

Each starter set will be personally selected by James F. Ruddy and Q. David Bowers of our staff. Take your pick of one of these sets and send us your order today:

- | | |
|--|----------------|
| Connecticut Starter Set No. 1 (value \$125.00+) | \$100.00 |
| Connecticut Starter Set No. 2 (value \$300.00+) | 250.00 |
| Connecticut Starter Set No. 3 (value \$600.00+) | 500.00 |
| Connecticut Starter Set No. 4 (value \$1200.00+) | 1000.00 |
| Connecticut Starter Set No. 5 (value \$3000.00+) | 2500.00 |

Of course, the larger starter sets will contain many specialized die varieties in addition to the major design types.

Connecticut Copper Coins by Die Varieties

For the advanced collector we offer die varieties of Connecticut cents attributed to Miller numbers as listed in his *State Coinage of Connecticut*. Due to our space requirements the present listing includes only rare die varieties or pieces in higher grades; it is a listing of pieces in our stock valued at over \$100 each. We have a really fine stock of other Connecticut cents priced in the \$10 to \$100 range, and we recommend that you consult our earlier *Rare Coin Review* No. 15 for a listing of these. Of course, many of these earlier-listed pieces have been sold, so send a listing of second and third choices when ordering.

As a matter of possible interest we mention that 75% of the Connecticut copper coins listed in our last *Review* issue (No. 17) went to dealers buying for resale. A strong market in colonial coins seems to be on its way!

Rare varieties of Connecticut cents are listed below. After each coin we list the Miller number and the rarity (such as R-1, etc. — based on Miller's own rarity scale ranging from "common" to R-6 [the highest degree of rarity]).

FROM MODEST BEGINNINGS

"Recently it was my pleasure to receive a copy of your Rare Coin Review No. 17 and to read your excellent article, "Our Changing Hobby—A Dealer's-Eye-View". Presently I am a college sophomore dealing part time in world coins. I attend two local coin shows per month and have a bourse table at each. It was certainly encouraging to read of your early experiences as a dealer. Yours is a great success story, and to learn that a vast company such as Bowers and Ruddy Galleries could grow from modest beginnings (with a great deal of work and dedication added, certainly), gave me quite a lift." — an unsolicited comment from F.J.N. II of Midlothian, Illinois.

Collection of Massachusetts Copper Coins

We offer for sale a beautiful specialized collection by die varieties of Massachusetts half cents and cents of 1787 and 1788. We are considering breaking up this set to offer the varieties individually, and if this listing does not sell the set intact we will do this. The pieces are worth considerably more on a single-item basis.

The set consists of the following coins: 1787 half cent, 8 different die varieties; 1788 half cent, 2 different die varieties; 1787 cent, 5 different die varieties; and 1788 cent, 18 different die varieties.

The grades range from Very Good to Uncirculated, with the average being Very Fine to Extremely Fine. This top-grade set was formed over a period of years and was constantly upgraded whenever a superior specimen could be found. It is a beautiful set and as such it will be a prized possession for its next owner. A real value for just 3495.00

Washington Pieces

We offer a nice selection of Washington pieces, including the extremely rare 1792 Roman Head cent—the first specimen of this variety we've ever owned.

1783 Georgius Triumpho. Scarce issue, and one which is rarely seen in grades better than Fine. Good \$32.00; G-VG \$35.00; VG-Fine \$45.00; Fine 85.00

1783 Draped bust. No button on toga. Fair \$8.00; Very Good \$17.00; Very Fine 35.00
1783 UNITY STATES cent. One of the most interesting of all Washington pieces, the UNITY STATES cent was made during the very early 19th century. The reverse is copied from a circa 1803 U.S. large cent, except that the legend reads UNITY STATES OF AMERICA—probably as an evasion of the counterfeiting laws. The last time we offered a group of UNITY STATES cents they sold quickly. Now due to a special purchase of colonial coins put away about two decades ago we have about fifteen pieces in stock, mostly in the grade of Very Fine. Now is an ideal time to acquire one of these beautiful and interesting coins: Very Good \$22.00; Fine \$49.00; Very Fine \$55.00; (five VF for \$195.00); EF 89.00

(1783) Washington Double Head cent. Of interest as an authentic original two-headed coin! Good \$19.00; Fine \$42.00; Very Fine \$52.50; Extremely Fine \$99.00; EF-AU \$109.00; AU, very rare in this grade 129.00

1791 Small eagle cent. With reverse reminiscent of the Great Seal of the United States. Fine \$69.00; Extremely Fine \$139.00; AU, prooflike. A splendid specimen of this scarce issue 195.00

SOME NICE WORDS

"I have heard all kinds of nice things about Bowers and Ruddy Galleries, and I am sure you do also every day. I am enclosing a letter from a collector and dealer whom I respect, and in judging dealers he sets your firm above all others." — an unsolicited comment (accompanied by a copy of a letter from a Texas dealer) from W.J. of Rochester, New York.

"GRADING IS OF THE HIGHEST CALIBER"

"I really enjoy your Rare Coin Review. It is the best coin 'wish book' in print! Your grading is of the highest caliber. I have been buying coins from you for years and your grading is really superb. Your firm has made the coin hobby most enjoyable over the years. A satisfied customer thanks you ever so much." — an unsolicited comment from P.E.P. of Munising, Michigan.

1791 Large eagle cent. Abt. Fine \$45.00; Extremely Fine \$125.00; EF-AU \$169.00; AU \$189.00; Brown Uncirculated. Rare in this grade \$249.00; Brown Uncirculated, prooflike surfaces. Another prize specimen \$350.00; Uncirculated, red and brown surfaces. Still another top grade example of one of the most desired of all Washington pieces 389.00

Rare WASHINGTON BORN VIRGINIA Cent

(1792) WASHINGTON BORN VIRGINIA cent. Copper. Obverse with portrait of Washington surrounded by legend: GEO. WASHINGTON BORN VIRGINIA FEB. 11, 1732. Reverse with biographical data in 10 lines: GENERAL / OF THE / AMERICAN ARMIES / 1775 / RESIGNED / 1783 / PRESIDENT / OF THE / UNITED STATES / 1789. We offer a splendid Extremely Fine specimen with minor handling marks on the rim. The piece we offer is far superior to the *Guide Book* plate coin (which is exceedingly weak on the reverse). A choice example of a classic Washington item 2495.00

1792 Washington Roman Head Cent

1792 Washington Roman Head cent. Edge lettered: UNITED STATES OF AMERICA. A splendid light brown Proof specimen of this important rarity. This offering marks the first time we have ever handled a 1792 Washington Roman Head cent. Considering that nearly every other variety of colonial coin listed in the *Guide Book* has passed through our hands during the past two decades, this is quite a significant statement. The desirability of this specimen is poignantly illustrated by these factors: (1) It is an extreme rarity; a coin lacking in nearly every major private or museum collection. No recent sales records are known to us. (2) The design of the coin is of special interest. The styling of the Roman Head portrait is different and unique—thus making this a major design type quite unlike any other contemporary issues. The reverse is important in that it bears the heraldic American eagle and the denomination spelled out as CENT. (3) The condition of the presently-offered specimen is unimprovable; it is a lightly toned brown Proof. (4) The price at which we offer our coin is quite reasonable, even very low, in our opinion. Our dealer friends, Stack's, recently sold a Clinton cent (of which we have had two specimens in the past 20 years, although none was equal in grade to the Uncirculated Stack coin) for \$34,000.00, indicating the great desire for choice colonial pieces. The beautiful Proof 1792 Washington Roman Head cent is offered for just 14,975.00

(1795) Liberty & Security penny. Massive coin depicting Washington on the obverse and an eagle on shield on the reverse. Edge lettered: AN ASYLUM FOR THE OPPRESS'D OF ALL NATIONS. Very thick planchet. One of the most impressive of all Washington pieces, and of special interest due to the sentimental-edge inscription noting as it does the appeal of America as a refuge from oppression. Very Good \$49.00; Very Fine \$115.00; VF-EF \$139.00; Extremely Fine \$159.00; EF-AU \$179.00; AU \$199.00; Uncirculated, red and brown. UNITED STATES HALF CENTS

Our selection includes specimens of scarce issues such as 1793, 1796,
1802/0, and 1836 as well as popular issues for type sets.

1793 First year of issue, and the only year with the Liberty facing left
with pole and cap design. If you are building a choice type set or a
date set of half cents, take your pick of these excellent values: Fair, a
minimum-condition coin readily identifiable as to type \$99.00; Very
Fine. Priced at \$100 to \$200 below what comparable pieces have
been selling for. Just \$945.00; Sharp VF-EF, quite rare in this grade
\$1495.00; Extremely Fine, some surface porosity \$945.00; Extreme-
ly Fine, a splendid half cent for the type set collector who desires the
best. 1793 half cents better than EF are rarely seen. Should a
mint-state specimen appear on the market it would sell for several
multiples of the price we are asking for this beautiful Extremely Fine
piece: 2495.00

1794 New type with Liberty facing right. Obverse portrait in bold
relief, unlike the 1795-1797 issues. Also the 1794 head is quite a bit
larger. Abt. Good \$39.00; VG obverse, smooth reverse \$49.00; Good

\$59.00; Very Good \$89.00; Abt. Fine \$139.00; Fine \$159.00; Very
Fine, a very attractive specimen of this date (actually, 1794 half

cents are quite rare in grades better than Very Fine, and even Very
Fines are not easy to find) 279.00
1795 Plain edge, no pole to cap. Abt. Good (date not visible, but
outline to head discernible and many letters readable), an inexpen-
sive space filler for just \$19.00; Abt. Good (date visible) \$39.00;
Very Good \$79.00; VG-Fine \$89.00; Abt. Fine \$97.00; F-VF 195.00

Exceedingly Rare 1796 Half Cent

1796 half cent. Pole to cap. The classic rare date of the half cent series.
The specimen we offer is a sharp VF-EF example which has some
surface marks, but which has the designs, details, letters, etc. quite
sharp. We offer this 1796 for what we consider to be a real bargain
price: for less than the *Guide Book* valuation for just Fine! Buy this
rarity for only 2595.00

1797 Plain edge. Low head variety. Date far too low on coin, and
crowding date into border. Very Good obverse, Good reverse \$79.00;
Abt. Fine 110.00

1797 Plain edge. Very Good 79.00

1797 1 over 1 variety. Date started too high on the coin and then
re-started and completed in the correct position. Interesting early
diecutting error! Abt. Good, date bold \$36.00; Good \$49.75;
Obverse VG, reverse Abt. Good. 59.00

1797 (variety Cohen-2) struck on a planchet made from a cut-down
Talbot, Allum & Lee cent. This coin, in Extremely Fine grade, is one
of the sharpest overstrikes we have ever seen! Many of the original

T.A.&L. devices are still sharply visible on the obverse and reverse — as our enlarged illustration shows. A prize item for the half cent specialist! 495.00

DIDN'T DISCOVER US SOON ENOUGH!

"Dear Jim: Enclosed is my check covering the March shipment for my Collection/Investment Plan. I have enjoyed looking forward to each shipment, knowing that I would be pleased with the material chosen by you — both for its quality and for its interest. My only regret is that I didn't discover your firm ten years ago. Keep up the good work!" — an unsolicited comment from R.H. of Garden City, Kansas.

Extremely Rare 1836 Half Cent

1836 Half cent. Original struck from unbulged dies. Struck only in Proof condition, 1836 is one of the most important dates in the half cent series. The present 1836, a beautifully toned Proof, is one of just two specimens we have had during the past ten years. A prize specimen of a prime American rarity. Fewer than two dozen specimens are known to exist. First telephone call gets it for 1975.00

1837 Half cent token. HALF CENT WORTH OF PURE COPPER. While our stock of a dozen pieces lasts we offer these at extra-special prices; at attractive reductions from catalogue, due to a special purchase we made: Very Fine \$49.50; Extremely Fine \$59.00; EF-AU \$69.00; Sharp AU, very scarce in this high grade 89.00

- 1849 Large date. First collectable date of the braided hair 1840-1857 design type. VF-EF \$32.00; Extremely Fine \$39.50; Red and brown Uncirculated. One of the finest 1849 large date half cents we have ever seen. For some reason 1849 half cents (and those of 1853 as well) are the only half cent dates of the 1849-1857 later-date series which are not occasionally seen with traces of mint red. In Uncirculated grade 1849 large date is a great rarity. It is perhaps 25 to 50 times rarer than an Uncirculated 1854 or 1855 half cent, for instance. This 1849: 249.00
 1850 Very Fine \$22.00; Extremely Fine 39.50
 1851 VF-EF \$22.00; AU \$39.00; Red and brown Uncirculated, a nice type set coin \$149.00; Brilliant Uncirculated, quite rare in this condition 249.00
 1853 Very Fine \$19.75; VF-EF 23.00
 1854 Fine \$16.00; EF \$29.00; Brown Uncirculated 95.00

- 1855 Choice Brilliant Uncirculated. Rare so 295.00
 1856 Very Fine \$24.00; Extremely Fine \$32.00; Lustrous brown Uncirculated 97.50
 1857 Last year of the half cent series. Fine \$24.00; Extremely Fine \$39.00; Brilliant Uncirculated, a full Mint State 70 coin, and a rarity as such 310.00

"EXCEPTIONALLY HIGH QUALITY"

"Thank you for your latest copy of the Rare Coin Review. I have participated in your Collection/Investment Plan for approximately six months and I have received nothing but exceptionally high quality coins. I was faced with a difficult decision in placing my 'Review' order as I know all of the items are of a high grade. My enclosed order [for a Liberty nickel] reflects my choice." — an unsolicited comment from W.R.K. of Milwaukee, Wisconsin.

A WELL-KEPT SECRET!

"It has been really great to do business with you. I learned of your firm through an article about you in the New York Times. If you would do more advertising here on the East Coast I know you would have a lot more customers — for I know that a lot of other collectors would become steady customers once they saw your catalogues and ordered coins from you. Don't keep your firm such a secret!" — an unsolicited comment from L.C. of Garden City, New York.

UNITED STATES LARGE CENTS

We offer an interesting selection of United States large cents—pieces for the date collector as well as for the type set collector. Our offering includes specimens of the three major design types of 1793—the chain, wreath, and Liberty cap styles—plus scarcities among later issues, 1804 and 1809 for example.

1792 Copper Cent Pattern Without Silver Center

1792 pattern cent, the specimen from the Century Sale (1965), and described there as: 1792 copper (or fusible alloy) cent without silver center. The act providing for the establishment of a United States mint required that all coins be of full weight and value. In 1792 several ideas were tested to establish a one-cent piece having an intrinsic value equal to the face value. The Birch design cents were struck in pure or nearly pure copper. To meet the required value they were approximately the diameter of a half dollar. To alleviate this bulk an interesting compromise was made: a smaller diameter cent made of copper with a silver plug at the center to bring it up to the required intrinsic value was issued. Following the coinage of the silver center cents a few pieces were struck in a "fusible alloy," copper and silver mixed together. The specimen offered here is one of those fusible alloy pieces. To the best of our knowledge there are only five of these cents known. Three are permanently impounded in public collections: the pieces now in the Smithsonian Institution, Massachusetts Historical Society, and John W. Garrett (Johns Hopkins University) exhibits. The specimen offered here is in G-VG grade with a granular surface. When you consider that nearly every outstanding collection formed during the past century has lacked a specimen of this coin in any grade the opportunity to acquire this piece becomes a truly once-in-a-lifetime event. So concludes the description we wrote for this coin in 1965. Since that time we have not had the opportunity to handle any others. We offer this prime rarity for just\$14,950.00

1793 Chain Cents

1793 Chain AMERICA cent. Obverse with Liberty facing right. Reverse with unique design of chain links encircling the denomination. The very first American cent type and, as such, of great interest. A necessity for type sets. We offer the following attractive specimens: Nice Very Fine \$1545.00; Sharp VF-EF \$2795.00; Beautiful AU, one of the very finest 1793 chain cents we've seen. We think you'll enjoy doing business with Bowers and Ruddy Galleries. We treat you as we would like to be treated ourselves. In today's world of impersonality we think you'll find doing business with B&R to be refreshingly different. We enjoy working with coins a lot, and by means of the pages of the *Rare Coin Review* we share our enjoyment with you. "Your friends in the rare coin business" is the little motto we've been using for quite some time now — and we think it is meaningful. For a friendly and enjoyable transaction combined with the quality and value of coins you've been hoping for, try Bowers and Ruddy Galleries. There's a real difference.

NOTE: The foregoing listing points out a situation which deserves
 mention here. It is often the practice of certain sellers to overlook
 rubbing, planchet defects, etc. and simply call a piece "Uncirculated."
 If the preceding 1851-O silver three-cent piece which we list as
 "Brilliant Uncirculated, with rubbing \$79.00" were simply listed as
 "Brilliant Uncirculated \$79.00" it would seem to be an unbelievable
 bargain. At Bowers and Ruddy Galleries, Inc. we do take the time and
 effort to describe coins accurately. Keep this in mind when comparing
 prices for, as we have stated before, a comparison of price without a
 comparison of quality is meaningless. At Bowers and Ruddy Galleries
 you get the quality you pay for. This will mean real dividends for you
 when time comes to sell your collection.

SECOND CHOICES ...

SECOND CHOICES will be appreciated! As *Rare Coin Review*
 No. 18 is being written, each and every coin in this issue is actually
 in our stock. However, many pieces are one-of-a-kind in our
 inventory. For this reason we really encourage you to list second
 choices. A handy space for this purpose is on the back of your order
 blank. Second choices will not be used unless the first choices have
 been sold. If you're ordering for a type set and the date is not of
 importance, just mark "Same Type" as your second choice — and
 we'll send a coin of the same design type and of equal or higher
 grade and value. Second choices help you — by giving you a greater
 percentage of your order with a lessened possibility of a "sold out"
 letter or a partial refund. Second choices help us by bringing more
 business our way. So, second choices are an ideal situation for both
 of us!

"IT SURE IS A PLEASURE"

"It sure is a pleasure to do business with a firm that is tops in quality and service. I have been well satisfied in the past with coins received from you, and I am sure I will continue to be satisfied in the future." — an unsolicited comment from R.A. of Wauconda, Illinois.

U.S. HALF DIMES

We offer a beautiful selection of half dimes, including several choice examples among the highly desired early dates.

Rare 1792 Half Disme

1792 Half disme (see page 58 of the *Guide Book*). A sharp VF-EF example with exceptionally smooth and clean surfaces free of the usually-seen weak spots. One of the nicest 1792 half dimes to ever come our way 3495.00

1794 First year of issue of the half dime and in strong demand as such. We offer a beautiful Extremely Fine specimen, a candidate for a top-grade type set, for just 995.00

1795 Flowing hair type as also used in 1794. We offer several different specimens of this attractive and important early issue: Good, with sharp date and lettering \$145.00; Very Fine \$495.00; VF-EF \$595.00; Extremely Fine \$695.00; Very beautiful AU, a real value for just \$895.00; Brilliant Uncirculated, some mint-caused adjustment marks do not detract from the attractiveness of this mint state example. \$1295.00; Brilliant Uncirculated, a gem. A coin for the collector who demands the finest quality. Few 1795 half dimes in existence can come close to the quality of this one! 2450.00

1796/5 Overdate. Very rare variety. A sleeper issue which is far scarcer than the current catalogue listings would indicate. We offer a pleasing Very Fine example. A prize coin for the half dime specialist 1295.00

1796 Scarce issue (as are all 1796-1797 half dimes). Important for type set purposes. Good \$169.00; Extremely Fine, a very beautiful specimen and a desirable coin in all respects 795.00

1797 Abt. Good. Date sharp and many designs discernible, but evenly worn 99.00

"THE MOST PERFECT GEM I HAVE EVER SEEN"
 "The 1880 nickel three-cent piece in Brilliant Uncirculated grade which I bought from you is the most perfect gem I have ever seen."

However, the Comparison Test is sincere and is available for you — and it's backed up by our money-back guarantee. You get QUALITY and VALUE from Bowers and Ruddy Galleries, Inc.

Choice BU 1797 15-Star Half Dime

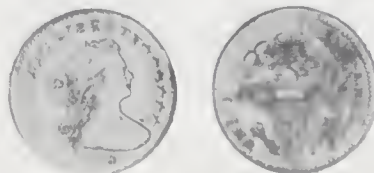

1797 half dime. 15 obverse stars. A choice Brilliant Uncirculated example of this issue. *Never before in any of our catalogues have we ever offered for sale a choice Brilliant Uncirculated specimen of this coin.* Here is a great rarity; a coin whose importance cannot be overemphasized. It is important not only as a date, but as a type coin as well. In the first edition of his *Photograde* book, Jim Ruddy said (in 1970): "It might interest you to know that generally speaking the most difficult coins to locate [for photography in his grading guide] were the small eagle reverse coins of 1796 and 1797." The choice Brilliant Uncirculated 1797 half dime here offered is unequalled by any other we have ever seen. It is expensive, just as it was when we recently acquired it, but we believe it will sell quickly for .. 4995.00

1800 First year of the heraldic eagle reverse type. Fine \$279.00; F-VF \$349.00; Uncirculated, deeply toned. Some rubbing on the highest surfaces 1450.00

1801 Very Fine \$465.00; Very Fine plus, the plate coin used by D.W. Valentine to illustrate his monograph, *The United States Half Dimes* (cf. variety V-18). \$695.00; Brilliant Uncirculated, the finest 1801 half dime we have ever handled. Mint-state half dimes of the 1796-1797 design type and of the 1800-1805 design type are so rare that many, many years will often go by without an example of a given date appearing on the market. Even the greatest collections we've handled often lacked these. Here is an opportunity for the alert type coin collector or the half dime specialist 2950.00

1805 Scarce date. VF-EF. Very rare in this grade. The *Guide Book* does

not price 1805 in grades better than VF. Another major opportunity for the half dime specialist 995.00

Capped Bust Half Dimes (1829-1837)

1830 EF-AU \$69.00; BU, light rubbing \$119.00; Choice Brilliant Uncirculated, scarce in this grade 275.00

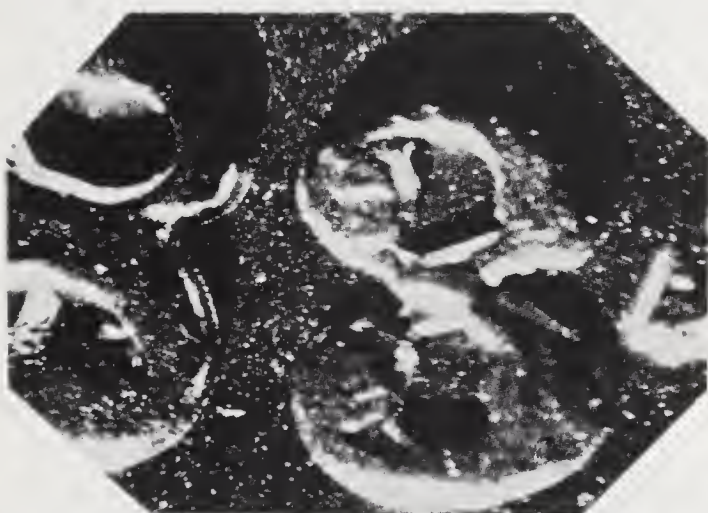

1831 Fine \$26.00; Extremely Fine \$52.00; EF-AU \$69.00; AU \$89.00; Choice Brilliant Uncirculated \$275.00; BU, a presentation striking with nearly 100% full prooflike surfaces. A splendid coin! .. 495.00

1832 Fine 14.00

1833 Very Fine \$26.00; VF-EF 42.00

1834 Very Good \$7.50; Very Fine \$26.00; Choice Brilliant Uncirculated, uncommon in this grade 275.00

1834 Rare and interesting variety with 3 in date over a backwards 3. The digit was first cut facing the wrong way, and then overpunched when the error was noticed. One of the most egregious diecutting blunders among early American issues! We offer a BU specimen with light rubbing for \$195.00; and a choice Brilliant Uncirculated example, a prize coin, for 495.00

1835 Very Fine \$26.00; VF-EF \$42.00; AU \$89.00; Choice Brilliant Uncirculated 275.00

1836 F-VF \$15.00; Very Fine \$26.00; Extremely Fine 52.00

1837 Bust type. Large 5c on reverse. Very Fine \$26.00; Extremely Fine \$52.00; Brilliant Uncirculated 275.00

Liberty Seated, No Stars Half Dimes (1837 and 1838-O)

1837 Liberty seated, no stars on the obverse. A very attractive design produced only in the 1837 and 1838-O issues; a design adapted from Christian Gobrecht's beautiful silver dollar obverse design of 1836. We offer a wide choice of grades and prices—something for everyone: Abt. Good, but readily identifiable \$22.50; Good \$34.50; G-VG \$44.00; Very Good \$49.00; Abt. Fine (with six of the seven letters in LIBERTY sharp) \$52.00; Fine \$55.00; F-VF \$67.00; Very Fine, special value at just \$85.00; Extremely Fine, a sharp and desirable specimen of this popular issue for just \$129.00; EF-AU \$149.00; Brilliant Uncirculated, a gem 595.00

1838-O Liberty seated, no stars. Design as preceding. Good 37.00

Liberty Seated Half Dimes (1838-1873)

1840 No drapery at elbow. Brilliant Uncirculated, small planchet defect on reverse 119.00

1841 AU \$49.00; Choice Brilliant Uncirculated. Scarce 149.00

NOTE: The numismatic market is now just beginning to realize the true scarcity of certain Uncirculated Liberty seated issues from half dimes through dollars. For a number of years we have maintained that this series contains major rarities—sleeper coins so rare that only a few come on the market each year, if indeed even that many. Now the Uncirculated Liberty seated coins are beginning to be appreciated. Even so, the prices on many issues would seem to have a long way to go.

1844 Fine \$9.00; Brilliant Uncirculated \$115.00; Choice Brilliant Uncirculated 149.00

"ENTIRELY SATISFACTORY"

"I am enclosing a check in the amount of \$--- for coins of your choice for investment. As I have done in the past, I rely on your good judgment as to the selection.

"Because of my sound belief in coins, not only as things of beauty but as sound investments as well, I am enclosing an additional check for \$--- which represents the earnings of my daughter from baby sitting. She has expressed the desire to 'invest' and I advised her of my conviction in the potential of choice coins. For her I would prefer choice Brilliant Uncirculated Liberty walking half dollars as advertised on page 33 of your Rare Coin Review No. 17. I leave the dates and quantities to your good judgment. Please ship her coins as a separate package.

"May I add that all of the coins received from you in the past have been entirely satisfactory. Many of them have really appreciated in value during the short time I have owned them. Many coins ordered from other sources have been returned, but never from Bowers and Ruddy Galleries."

HE HAS DISCOVERED THE REASON FOR OUR SUCCESS

"I believe in checking prices so I can get a good deal for my money, as I do not have an unlimited budget. I want to tell you that my first order for two Indian cents, probably a rather small order so far as you are concerned, absolutely delighted me! In fact, I was so happy with the quality and beauty of the coins that I am going to order a complete set of Indian cents from you over a period of time as my finances permit. If you send others the type of coins you sent me I can see the reason for your success in the rare coin profession." — an unsolicited comment from M.S. of New York City, New York.

"My order on your last invoice has been received, and as usual the items were perfect. I appreciate a firm such as yours, and you can be assured that any coins I need will be ordered first through your company."

"It has always been very reassuring to me to know that I never have to worry about any coins you ship. If a coin is not perfect, your description in your catalogue says so. In fact, it has been my experience with your company that the coins are usually better than I expect them to be."

"Thank you again. You will be getting another order from me shortly."

U.S. QUARTER DOLLARS

We present an interesting and varied selection of quarters, including examples of the major design types: 1796 (of which we offer a rather remarkable range of grades!), the heraldic eagle type, the capped bust type, Liberty seated issues, Barber quarters, Liberty standing pieces, and, lastly, the Washington quarters of our own time. You'll find Good coins and Proof coins — something for everyone.

1796 Quarters

1796 First year of issue, and the only year of the small eagle reverse type. The low mintage (just 6,146 struck!) of 1796 plus the demand for this coin for inclusion in type sets has made the 1796 quarter a wonderful investment over the years. We offer a wide selection of grades, each guaranteed to please: Good \$995.00; Very Good obverse, Good reverse \$1495.00; VG-Fine \$1850.00; Fine \$1995.00; F-VF \$2400.00; Very Fine \$2850.00; beautiful EF 4650.00

A NICE LETTER

"I am writing to tell you that I am very pleased with the 1927 \$20 gold piece I received from you earlier this month. It was what I expected from a firm of your caliber. I believe it was what most of your competitors would call CHOICE BU; your description was simply "Brilliant Uncirculated."

"I would also like to compliment you both on your respective books, both volumes having been received last week. Mr. Bowers, your chatty 'Coins and Collectors' book was very interesting as well as informative. Just reading about some of those early prices and collections makes one realize how far numismatics has developed over the years.

"Mr. Ruddy, your 'Photograde' work is one which deserves a 'thumbs up' for its fine photography and standardization for a realistic universal grading of coins. Well done to you both! These will be proud additions to my ever-growing numismatic library..."

DOESN'T WRITE FAN LETTERS OFTEN!

"Enclosed please find my check for \$—— in payment for my Collection/Investment Plan. In an unrelated matter, I am interested in buying a good specimen of the type I U.S. silver dollar, flowing hair, type of 1794. I would like very much to get a true Uncirculated, finances permitting — and I am interested in learning if you have any in stock. Finally, a word about your Collection/Investment Plan. I am not in the habit of writing fan letters, but in your case I must. I echo the comments of others who have lauded your selections and grading. As far as I am concerned you are at the head of the class and have every reason to stand tall among the giants of the numismatic profession. Keep up the fine work." — an unsolicited comment from J.P.C., FBIS of APO San Francisco, California.

INVESTMENTS FROM DAYS GONE BY . . .

When looking through our catalogues of the 1950's and 1960's we cannot help but feel proud that our many customers back then (and you may have been one of them!) have done so well with their numismatic investments.

Our philosophy has been to encourage our customers to acquire scarce and rare coins of proven numismatic value. To be sure, this is not as spectacular as recommending some sort of "sure thing" (really, is anything a sure thing anyway?) or a hot speculation. But in the long run the profits have been surer and more consistent.

Inflation seems to be a way of life in our economy now. In the past, coins have been a superb hedge against inflation. Today's world is becoming more internationally oriented, too. America is no longer alone. Scarcely a day passes without the economy of Germany, Japan, England, and other countries making headlines. It is significant to observe that rare coins are a truly international investment — and that by holding choice and rare United States coins and coins of the world you

can participate in the good economic times of other countries as well. It may be surprising for you to learn that some of our best customers for *United States coins* in this *Review* issue will be dealers in Europe and Asia! The citizens of their own countries avidly collect United States coins, just as American citizens have collected ancient coins, world crowns, and other "foreign" issues for many years.

Add to these features, the features of convenience, privacy, an active market, and other considerations, and you have an ideal investment medium.

Coins have indeed been an ideal investment medium for our customers of years gone by, and we have helped many of our customers make fortunes. It has been a pleasure doing so, for by keeping the best interests of our customers first in our minds, we have attracted a clientele the quality of which is equalled by no other rare coin firm. We're proud of this. And we think we have every reason to be . . .

LIKES HIS HALF DOLLAR!

"I received the 1912 Proof half dollar in the mail on Saturday. All I can say is WOW! — What a gem! I run a small coin store here in Rockford that caters primarily to young people. I believe in helping those 8 and 9 year old children as I remember that when I was that age any dealer who helped me was tops in my book. I probably am giving more away to young children than I should be, but I feel that honesty and sincerity will pay off for me in the long run. I am located in a new shopping center, so the location is very excellent.
 "I bought the 1912 Proof half dollar for my own personal type coin collection, and I must say that it truly is a super coin. I have continually the problem of dealers trying to peddle inferior coins to me at inflated prices. I am so tired of this that I feel that I will do business with you people from now on. The funny thing is that in my two years of operation I have never been shown a coin which even halfway compares to your 1912 half dollar. Again, thank you for sending me something I expected — a damn beautiful coin at a fair price!"
 —an unsolicited comment from H.T.W. of Rockford, Illinois.

1795 Interesting variety with S in STATES over a previous erroneous D. Seldom offered for sale. Nice Very Fine 595.00

1795 Die blunder with A of STATES over a previous erroneous E. Sometimes called the "STATES over STETES" variety. F-VF. Scarce 449.00

OUR "AU" AS GOOD AS SOME "BU"

"The AU 1909-S quarter you sent me was as nice as some I have seen graded elsewhere as "Brilliant Uncirculated." Again I wish to thank you for your fine coins and excellent grading." — an unsolicited comment from R.G. of Montoursville, Pennsylvania.

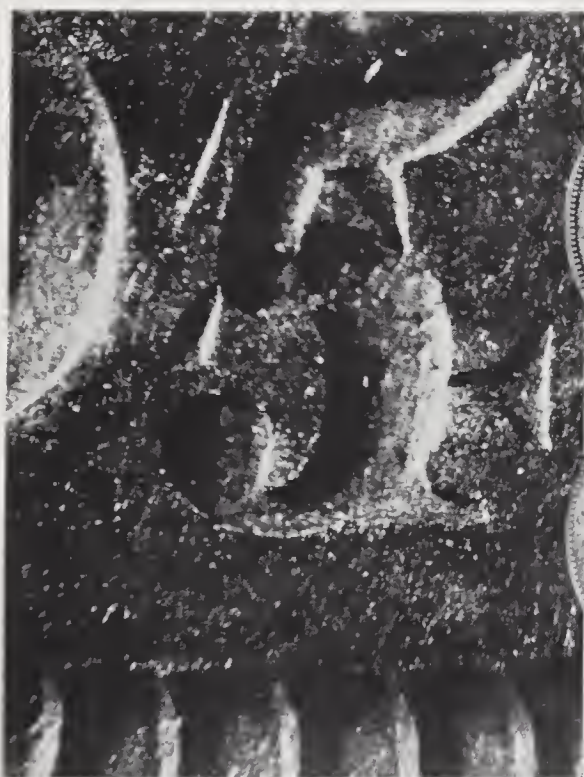

Rare 1797 Half Dollars

1797 Half dollar. One of the most desired of all United States coins, the 1797 half dollar usually appears on the market only when great collections are sold. The appeal of the 1797 is caused by its great rarity and its necessity for inclusion in a type set to illustrate the 1796-1797 small eagle reverse style. In this issue of the *Review* we offer two beautiful 1797 half dollars, each one an outstanding coin and an outstanding value: VF-EF \$6950.00; Extremely Fine, a sharp striking with especially excellent hair detail and centering. A rare beauty! 7950.00
 1801 Scarce issue. First year of the heraldic eagle reverse design. Nice Fine. Inexpensive at just 229.00
 1802 Scarce date. Only 29,890 pieces were minted. VF-EF, an attractive specimen 375.00
 1803 Small 3. Scarce variety. VF-EF 189.00

1803 Large 3. F-VF \$99.00; VF-EF \$179.00; Extremely Fine \$249.00

1805/4 Overdate. Always a popular overdate, the 1805/4 is the closest one can come to owning an "1804 half dollar." Dies dated 1804 were prepared, never used in that form, and then were overcut with the numeral 5, thus producing the sharp and distinctive 1805/4 overdate. Very Good \$69.00; VF obverse, VG reverse \$139.00; Very Fine \$197.50; Extremely Fine, very rare in this high grade .. 495.00
 1805 Fine \$59.00; Very Fine \$99.00; VF-EF 129.00
 1806/9 With 6 in date over an inverted 6. The last digit was first punched in the die in an upside down position and then corrected. F-VF 119.00
 1806 Pointed 6, stem through claw. Very Good \$36.00; VG-Fine \$49.00; Fine (rare variety O-25; rev. 114) \$75.00; Very Fine \$89.50; VF-EF \$129.00; Uncirculated, light toning. Rare so fine ... 995.00

1806 Pointed 6, stem not through claw. Interesting and unusual variety. The stem on the branch was never finished by the engraver, so the eagle is grasping thin air! Very Fine \$89.00; Extremely Fine \$195.00; AU, unusual condition for this variety (which is rarely seen in grades above EF, and even EF pieces are rare) 595.00

Capped Bust Halves, Lettered Edge (1807-1836)

1807 Capped bust type. Large stars on obverse. Very Fine 69.00
 1807 Capped bust. 50/20c variety. The engraver, thinking he was working on a quarter dollar die, started to engrave "25c" on the reverse. His error was realized once the first digit was cut, and was corrected by overcutting with a 5; thus the 50/20c variety. Attractive AU \$239.00; Brilliant Uncirculated, light rubbing 395.00

1808 Very Good \$14.00 VF-EF \$32.00; Brilliant Uncirculated 495.00
 1809 F-VF \$19.00; AU, attempted puncture on reverse \$149.00; Brilliant Uncirculated, minor planchet defect \$249.00; Brilliant Uncirculated 449.00

1811 Beautiful Uncirculated with light toning \$495.00; Brilliant Uncirculated 495.00

"YOUR COINS ARE ALWAYS SUPERB"

"I have been in your Collection/Investment Plan since 1971. Every month I am amazed at the quality of coins I receive — your grading and price combination of value is second to none.

"If anyone has ordered coins through the mail and they were not completely satisfied, then they did not order them from Bowers and Ruddy Galleries, Inc. — for your coins are always superb. Thank you again, and keep up the good work." — an unsolicited comment from K.S.P. of West Haven, Connecticut.

NOTE: Uncirculated examples of early bust type half dollars are becoming very difficult to find. A number of dates in the 1807-1820 range have sale records from \$500 to \$1000. Never common, Uncirculated pieces of these early years are now coming into their own. Specimens of the later (1821-1836) years are also fairly scarce in proportion to the great and growing demand for them.

1815/2 SPECIAL PURCHASE! We have just acquired a remarkable group of thirteen specimens of this highly important and very rare issue. Not even when we had the fabulous Cobb Hoard (2000+ pieces of 1807-1836 halves) did we have more than just a few 1815's. In fact, never in our 20-year history have we ever owned more than a half dozen or so specimens at the same time. The 1815 is of special interest as any collector aspiring to own a date run of 1807-1836 halves will find the 1815 to be far and away the rarest issue. As such, these coins have always been in strong demand. We offer you a choice of grades from this fabulous buy: Attractive Very Fine \$295.00; VF-EF \$369.00; Extremely Fine \$495.00; Sharp and lustrous AU, a really outstanding example! 795.00

Extremely Rare 1817/4 Half Dollar

1817/4 Half dollar. The Century Sale specimen, originally obtained from Al Overton. When last offered (in 1965) the coin was described as: "1817/4 overdate half dollar. One of two known specimens; the other one being a part of the collection of Mr. Louis Eliasberg of Baltimore, Maryland. This specimen is a choice Extremely Fine example, identical in grade to the Eliasberg specimen. The coin offered here was discovered by Al Overton of Pueblo, Colorado several years ago. An illustration of this piece appears as the featured coin in Mr. Overton's supplement to Beistle's *Register of U.S. Half Dollar Die Varieties*. The 1817/4 half dollar was subsequently purchased by [James F. Ruddy and Q. David Bowers] and sold to the present owner. The 1817/4 is the rarest coin in the half dollar series. As one of two known specimens, the appearance of this piece represents a truly once-in-a-lifetime opportunity for anyone desiring to complete a collection of this denomination." The 1817/4 half dollar was the favorite variety of the late AIC. Overton, and in many conversations with us he spoke of the overdate in affectionate terms. His book, *Early Half Dollar Die Varieties*, now the standard book in the half dollar field, pictures an 1817/4 half dollar as the cover coin. He describes the 1817/4 on page 100 of his reference: "The 1817 over '14 Story: A brief history of this extremely rare overdate may be of interest. The variety was first reported in the October 1930 issue of *The Numismatist* by Mr. E.T. Wallis of California, who listed it in his 1934 price list. For some reason the coin he had was never photographed or attributed in detail, and after the 1934 listing it seems to have disappeared from the public record. No further mention has been found of an 1817/4 except for Charlie Green's brief comment, "1 known," in his check list of 1936 (in reference to the Wallis specimen). The next record, so far as I have been able to find, of 1817/4 was when the author [Al Overton] purchased the Pratt Collection in 1952 and found that it included an Extremely Fine specimen. Because the overdate was very clear and unmistakable it was surprising that it had not been photographed, attributed, or listed in any of the catalogues of U.S. coins in use up to that time. I began a correspondence with Mr. Wayte Raymond, then the publisher of the *Standard Catalogue of U.S. Coins*, which resulted in my sending the 1817/4 to the American Numismatic Society in New York for examination . . . Mr. Raymond then agreed, in a letter to me dated April 8, 1952, to list it in the *Standard Catalogue*, and it appeared for the first time therein, in the 1953 issue released in the late autumn of 1952. This is the exact coin herewith illustrated. The next 1817/4 to come to public attention was eleven years later when a specimen turned up in California. Three other 1817/4 half dollars are now known in private collections, one more having come to light since my first edition in 1967. Total five now known — 1 EF, 3 VF, and 1 Fine." It is with pride and pleasure that we now offer for sale the 1817/4 once owned by Mr. Overton and graded by him as Extremely Fine; the Century Sale example. An outstanding opportunity 35,000.00

CONSIDER COLLECTING bust type half dollars. The series from 1807 through 1836 offers many interesting dates and varieties. The prices of most pieces are quite low in comparison to other United States issues of the same era. A descriptive book, *Early Half Dollar Die Varieties*, by Al C. Overton, details and illustrates die varieties of all half dollars from 1794 through 1836 inclusive. A hardbound copy of this 274-page book is available for \$15.00 postpaid. (Stock No. BO-1)

The 1838-O Half Dollar — an American Classic

The Celebrated 1838-O Half Dollar —The Century Sale Specimen— Proof

It is with great pleasure that we offer for sale one of America's classic rarities — the 1838-O half dollar. In 1965, when this specimen last appeared on the market, we had the privilege of cataloguing it for Paramount International Coin Corporation's "Century Sale." Our description of the coin (Lot 1151 in that sale) follows:

"**SUPERB PROOF 1838-O HALF DOLLAR:** 1838-O Half dollar — a beautiful Brilliant Proof specimen of this, one of the most famous of all American coins. Only twenty 1838-O half dollars were coined; and of that number fewer than ten are known today.

"The specimen here offered appeared in the auction sale of the prizewinning R.E. Cox, Jr. collection held by Stack's of New York on April 27, 1962. At that sale this coin was purchased for \$9,500.00 by [Q. David Bowers and James F. Ruddy]. Later they sold it to its present owner.

"The 1838-O half dollar has always been a member of the elite 'rarest of the rare' among United States coins — along with the 1913 Liberty nickel, 1894-S dime, 1827 quarter, and 1804 silver dollar.

"Few American coins can offer the pride of ownership afforded by this particular 1838-O — one of the most famous American rarities — a coin without the slightest stigma or controversy attached to it — and a coin in the ultimate condition, perfect Proof. Here, then, is an opportunity which may never be repeated."

Well, fortunately for us, history did repeat itself — and here, eight years after the Century Sale of 1965, you can have another opportunity to acquire this beautiful Proof 1838-O. Within the past year a number of prime American rarities have been sold in the \$75,000.00 to \$100,000.00 range, and higher valuations for other pieces have been spoken of.

We consider this gem 1838-O half dollar to be one of the most desirable of all American rarities. We consider it to be very reasonably priced at only 75,000.00

FANTASTIC!

"Fantastic! Both the coin and the service! The order you filled for me was my first by mail to any dealer. And knowing the experiences of others with mail order houses, I would be less than candid if I did not say that I was a bit worried about the quality I might receive. Your coin, however, was truly Brilliant Uncirculated! In short, I couldn't be more pleased!" — an unsolicited comment from T.J.C. of Alexandria, Virginia.

"Enclosed with my order from the current issue of the Rare Coin Review is my application for membership in the American Numismatic Association. I would appreciate your sponsorship of my application. "OUTSTANDING SERVICE: TERRIFIC GRADING"
 "I received the \$10 gold piece and the half dollar this afternoon. I have to admit that your service and grading can't be beat. I am particularly pleased with the \$10 gold coin which you sold to me as AU. Your AU coins are better than 'Brilliant Uncirculated' coins offered by other dealers. Thanks again for your outstanding service and for your terrific grading." — an unsolicited comment from D.Y. of Gardena, California.

Prooflike Gem 1851 Original Dollar

1851 Silver dollar. Original with date high in field; entirely different-appearing than on the usually-seen restrikes of this date. The specimen we offer is a prooflike gem Brilliant Uncirculated example of this issue. Only 1,300 specimens of 1851 were originally coined. It is our estimate that of this number fewer than a dozen strictly Uncirculated pieces survive today. Of these, none could exceed the presently-offered specimen in quality and few could come even close to matching it. A splendid 1851; a coin which will be one of the most prized coins in the collection of its next owner 8950.00

Morgan Dollars (1878-1921)

Our Grading System

Uncirculated silver dollars occur with varying degrees of bagmarks. At the time of striking, these coins were put into bins and then grouped into bags for storage. Little thought was given to saving pieces for future collectors! Even so, it is possible when checking through, say, a bag of 1,000 pieces to find several dozen or so pieces which qualify for Mint State 65 and 70 ratings (as explained below).

Each coin we sell is subject to your satisfaction. Any coin not pleasing to you for any reason may be returned within 7 days for an instant cash refund. Note also that there are variations on striking from date to date. Generally, Philadelphia Mint coins are more sharply struck than their branch mint counterparts. This is true for even the finest-known specimens. If you're a silver dollar specialist you already know this.

Here is our grading system:

MINT STATE 60: A strictly Uncirculated coin which has a normal number of bagmarks; a typical coin as taken from an original mint bag of 1,000 pieces. These are not "sliders." In fact, some call them "selected," or whatever.

MINT STATE 65: A really choice example with only a few bagmarks; many fewer than would be normal for that date or mintmark. You might have to look through ten "regular" Uncirculated pieces to find one of MS-65 quality by our standards. Coins of this quality are generally the finest available and are often called "selected choice," "gem," or whatever.

MINT STATE 70: A really select coin, the type of quality for which a mint bag of 1,000 pieces might yield just five or ten specimens, or perhaps none at all! Bagmarks will be very minimal. The striking will be the finest possible for the variety. There is a quality which must be rated as being unimprovable. A silver dollar for the connoisseur!

DOUBLE EAGLES (\$20 GOLD PIECES)

1852 Recut date. Extremely Fine 269.00
 1854-S First San Francisco Mint double eagle issue. EF 495.00

1856-S Treasure gold! We have just acquired a small group (fewer than a dozen remain in our stock) of 1856-S double eagles. These pieces were lost at sea off the coast of Florida when a government sailing

ship sunk in the late 1850's. The pieces, never previously circulated, were being sent to pay the military. When the treasure ship was found by divers recently, these coins once again came to light. The 1856-S double eagles we offer here are each in full, sharp Uncirculated grade, with a matte-like surface from immersion in sea water for over 110 years. We have been able to trace only a single sale record for an Uncirculated 1856-S double eagle in recent years: the Gilhousen Collection specimen sold for \$1200.00 on February 19, 1973 by our friends at the Superior Galleries. We offer the few 1856-S double eagles we have, one to a buyer, on a limited basis. The price is quite reasonable on today's market in our opinion. Your cost for one specimen is: 795.00

Rare 1861-S Paquet Double Eagle

1861-S Double eagle with the distinctively-styled reverse with tall letters designed by Anthony Paquet. In 1859 and 1860 Paquet prepared several patterns for the double eagle denomination. Early in 1861 new double eagle reverse dies with tall, narrow letters on the reverse were sent to Philadelphia, New Orleans, and San Francisco. It was anticipated that \$20 pieces from this time forth would be of the new style. On January 5, 1861, two pieces were struck at the Philadelphia Mint. It was noted that the reverse die was slightly too large for the obverse and that the reverse border, being too narrow, would not strike up properly. In addition, there would be additional wear on the dies when coins were struck. The Director immediately countermanded any further use of the dies. The message was wired to New Orleans and arrived before any coins were struck there. The order to San Francisco was sent overland, there being no telegraph west of St. Joseph, Missouri, at this time. Before the Director's orders arrived (in February 1861) 19,250 1861-S double eagles with the Paquet reverse had been struck. Most of these were apparently melted and recoinced into regular (i.e., with the normal reverse) 1861-S pieces, for the existence of 1861-S Paquet double eagles was not known to collectors until many years later. Today the 1861-S Paquet double eagle is one of the most desired of all \$20 issues for two reasons: (1) for its basic rarity, and (2) for the distinctive reverse design. We offer a beautiful sharp EF-AU example, one of the nicest we've ever owned 4995.00

"ACCURATELY GRADED COINS"

"I want to compliment you on the 1836 reeded edge half dollar
in Fine condition which I have just received from you. It was one of
the most accurately graded coins any dealer has ever sent to me. It is
a real pleasure to deal with someone who doesn't stretch grading on
rare coins — especially the really "key" pieces. You are one of the
few dealers who delivers accurately graded coins." — an unsolicited
comment from J.S. of Rock Springs, Wyoming.

HAND-PICKED QUALITY

"I received my Albany commemorative half dollar yesterday on your invoice No. 28667, and as usual it is a beautiful coin and I am well pleased. It fits very nicely in my commemorative type set. As practically all of my commemorative coins are from Bowers and Ruddy Galleries it looks like a hand-picked matched set so far! Incidentally, if you have a Brilliant Uncirculated Stone Mountain half dollar in stock would you please send me one? The example I have in my set is a supposedly "Brilliant Uncirculated" coin purchased from another dealer, and frankly it sticks out like a sore thumb among the really Uncirculated pieces purchased from you. I would like to replace it." — an unsolicited comment from V.S. of Roswell, New Mexico.

UNITED STATES PATTERN COINS

We offer an interesting selection of United States pattern coins—all of which are very rare and most of which are very underpriced in comparison to regular-issue United States pieces.

Patterns have long been a specialty of ours. In 1961 we purchased intact the fabulous collection of Maj. Lenox R. Lohr—a collection comprising nearly 1,500 different pattern issues—the largest and most comprehensive group of patterns ever to be priced and offered for sale.

Patterns are the "footprints of history," it has been said. They are "what might have been"—but never was. Unusual designs, experimental metals and shapes, superb artistry—these qualities are yours with pattern coins.

"U.S. Patterns," by Dr. J. Hewitt Judd, is the standard reference book on the series. Copies are available from us for \$10 postpaid. In our opinion this is one of the ten most useful reference books available on U.S. coins—and it should be in every serious numismatist's library (regardless of whether or not he collects patterns or intends to).

There are numerous ways to collect patterns. If your specialty is cents, for instance, then the addition of a few one-cent pattern pieces will lend an immeasurable extra interest to your collection. Or you may want to form a type set of patterns—an interesting and challenging project. Pattern coins are interesting, beautiful, and rare. Could more be asked of a coin?

1864 "Pattern \$3 gold piece." J-401. Regular dies struck in copper-nickel. 47 grains weight. Uncirculated. Apparently struck on a thin copper-nickel planchet intended for a one-cent trial piece. Rarity 8. *Just 2 or 3 known.* This coin is more properly a mint error, in our opinion. It is struck slightly off center and with the die separation and pressure used to make regular 1864 \$3 gold issues. This coin earlier appeared as Lot 1102 in our Armand Champa auction sale (1972). We recently acquired it from the owner. A very, very rare and very, very unusual coin! 895.00

UNITED STATES CURRENCY

With this edition of the "Rare Coin Review" we continue our offering of choice pieces of United States currency. Included herein are popular types as well as rarities. Notes are attributed to "Paper Money of the United States" by Jack and Robert Friedberg (seventh edition) and "United States Large Size Paper Money 1861 to 1923" by William P. Donlon.

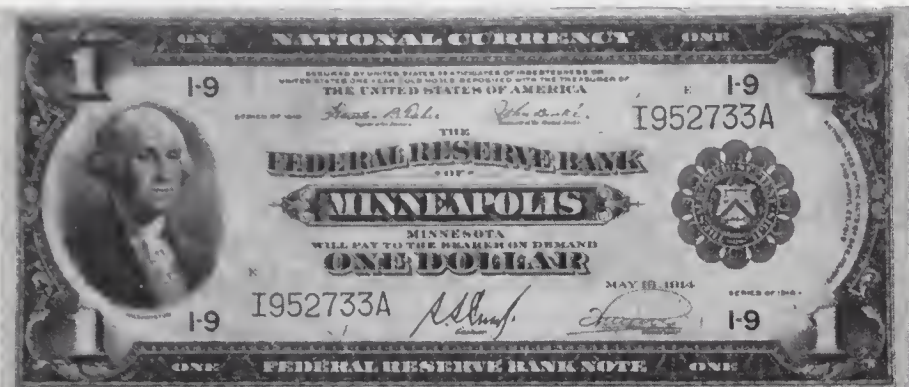

We begin this section with a selection of Large Size paper money:

\$1 Legal Tender. Series 1862. Chittenden, Spinner. F-17; Donlon X101-1 T2. This note portrays a bust of Salmon P. Chase, Secretary of the Treasury under Lincoln. In the center, the numerals "1" "2" "3" vertically with the "1" prominently displayed showing denomination. There were evidently plans for issuing a \$3 bill of this type as there is a space provided for this denomination on both the note described here as well as the \$2 bill of similar design. The plans never came to pass and we are left with the only "almost" \$3 bill ever issued by the U.S. government. The reverse side of the note has an intricate lathe design with the usual description of legal tender status. Sharp AU 85.00

\$1 Legal Tender. Series 1874. Allison, Spinner. F-19; Donlon X101-4A. In center, portrait of Washington facing left; at left, vignette of Columbus sighting land. Small red seal with rays. Crisp Unc. 165.00
 \$1 Legal Tender. Series 1917. Speelman, White. F-39; Donlon X101-31. The design of this note is similar to that of the last, with minor variations in the placement of words. Crisp Uncirculated 26.95
 \$1 Silver Certificate. Series 1896. Tillman, Morgan. F-224; Donlon X201-17A. This is the famous "Educational Note" showing History Instructing Youth. We offer two grades of this beautiful note: Extremely Fine \$85.00; Crisp Uncirculated, minor fold in center (almost unnoticeable) 119.00

 \$5 National Gold Bank Note. 1870. First National Gold Bank of San Francisco. F-1136. These notes were issued in California, as at that time, this was a "hard money" only area and National Bank notes were disliked. Congress provided, through an amendment to the National Currency Act of 1863, for California banks to issue notes redeemable in gold coin—thus the National Gold Bank Notes. Very few of these notes were ever issued, and very few remain outstanding

today. It is not often that one of these notes comes on the market. We currently offer two (!) different notes: F-1136 Very Good, exceptionally clean and far above average for \$450.00; Fine, truly scarce in this outstanding condition [most Gold Bank notes are seen only in very worn and tattered condition] for just 795.00
 \$10 National Bank Note. Second charter, second issue. Series of 1882 with blue seal and with "1882-1902" on green back. Lyons, Roberts. F-545, Donlon B310-20 T2. The Wells Fargo Nevada National Bank of San Francisco. Charter number 5105. F-VF, an interesting note with "wild west" associations 95.00
 \$10 Gold Certificate. Series 1907. Teehee, Burke. F-1172; Donlon X610-28. AU 59.00
 \$10 Gold Certificate. Series 1922. Speelman, White. F-1173; Donlon X610-31. VF 39.00
 \$20 Legal Tender. Series 1880. Vernon, Treat. Head of Alexander Hamilton to left, Victory advancing holding shield and sword at right. F-141; Donlon X120-17. Small red scalloped seal at right. Crisp Uncirculated 189.00
 \$20 Legal Tender. Series 1880. Tillman, Morgan. Similar to last. F-144; Donlon X120-22. Crisp Uncirculated 189.00
 \$20 Gold Certificate. Series 1906. Vernon, Treat. F-1181; Donlon X620-22. F-VF 65.00
 Set of Educational Notes. Includes the beautiful and scarce \$1, \$2 and \$5 Silver Certificates issued beginning in 1896. The notes included are: \$1, F-224 — design of History instructing youth: to right, the Constitution; in background, the Washington Monument and the Capitol; around the periphery, the names of great Americans in wreaths. \$2, F-248 — design with Science presenting steam and electricity to commerce and manufacture. \$5, F-268 — design of an allegorical group showing electricity as the dominant force in the world. The \$5 note is Crisp Uncirculated, while the \$1 and \$2 are AU. This set would be the highlight of your currency collection. Priced at 850.00

\$10 Federal Reserve Note. Series 1934A. The well-known "HAWAII" overprint, but with the word HAWAII inverted on the reverse. Miscellany

MISCELLANY — ALL SORTS OF THINGS!

This section contains regular United States coins, medals, tokens, printed items, ephemera, and all sorts of other things — items received too late for inclusion in the regular sections, items that were omitted from other categories, items for which we have no other categories, etc. The items are not in order. Look this listing over carefully. When ordering by telephone or letter, please mention that the item you are ordering is from the "Miscellany" section so we can locate it quickly! We've numbered the items as M-300, M-301, etc. and so on, for your convenience in ordering.

There just might be a few treasures in this listing! Read it through carefully!

- M-300. Set of four gilt-edge bound (in gilt-tooled leather) volumes entitled *Portraits and Vignettes Engraved by the Bureau of Engraving and Printing, Treasury Department, Washington, 1883*. According to the former owner of these, just four such bound sets were produced. We have never seen another set, and inquiry (by the former owner) to the Smithsonian Institution revealed that this impressive set is not represented in that museum's archives. Each volume is over 1" thick and contains steel engravings of presidents, prominent statesmen, allegorical scenes, topical subjects, and other vignettes, many of which were used on American paper money of the era. For anyone interested in Americana in its purest form these albums will be a joy to own. There are pages and pages of such vignettes as *America Seizing the Lightning*, *Battle of Lexington*, *Civilization*, *Justice*, *Peace*, *Liberty and Union*, *Steamboat Landing*, *Loyalty*, *Columbia*, *The Pioneer*, *Eagle*, *Return of Peace*, *Reconstruction*, *Introduction of the Old World to the New*, and *Columbus Discovering Land*, not to mention government buildings in Washington, famous United States ships, historical battle scenes, and other subjects. Each volume measures 6" wide by 7¾" high by 1½" thick. Each engraving is on a separate page with a wide border. There are hundreds of engravings in all. A prize acquisition for the currency collector, the numismatic museum or society, or the private collector. The set is in mint condition and is priced postpaid at 1995.00
- M-301. 1860 Lincoln/Hamlin ferrotype medal. Ferrotype portraits of Lincoln and Hamlin on respective sides. Holed at top for suspension on a ribbon (as usual). Extremely Fine 95.00
- M-302. *Encyclopedia of Automatic Musical Instruments*. Written by Q. David Bowers, this book was recently designated as "one of the most valuable reference books of the year" by the prestigious American Library Association. The massive volume contains 1008 pages and thousands of illustrations about music boxes, coin-operated pianos, player pianos, circus organs, and related self-playing instruments of the 1750-1940 era. The book is 8½x11" in size, is sturdily hardbound, and weighs seven pounds when boxed for shipment. Numismatists everywhere have found the book to be fascinating reading as the subject is related in a way. In any event, we guarantee that you'll find it to be interesting, entertaining, and useful. Before then, you can obtain a copy (while supplies last), including prices realized for 5.00

They have been slit cancelled (without removing any paper), so framed they look just like new. Where else can you find a 100-year-old genuine and original monetary decoration of this large size and beauty for less than \$10? While our small supply lasts we offer them for \$9.50 each postpaid; 10 for \$79.00; 50 for 299.00
- M-316. Library Starter Special: Most collectors start their libraries with a copy of the *Guide Book*, so we won't send you one of those—but we will send you at least \$30 worth of other books (on a retail basis; our choice of titles). All will be different and all will be in new condition. This will make a nice start on a reference library! 19.75
- M-317. Albums and holders for displaying or housing United States coins. Mainly the Whitman "Bookshelf" brand. New condition. No duplicates. Our choice of albums. At least \$20 retail value for just \$9.95 postpaid. At least \$40 retail value for just 19.50

This document, available on the terms stated below, is a written agreement between a Professional Numismatists Guild member (in this case, Bowers and Ruddy Galleries, Inc.) and a buyer in which the seller carefully identifies a specific numismatic item and guarantees that it is genuine and that it will be registered with the P.N.G. This document provides a permanent registration, should the origin, genuineness, or history be questioned at a later date, and provides a permanent record in the event of loss or theft.

This document must be ordered at the time a coin is ordered (as we cannot prepare it after the coin leaves our hands — weighing, photography, and other detailed work is involved here).

The following fee schedule is charged for each P.N.G. registration. This fee amount is to be remitted in addition to the price paid for the coin: (1) For an item sold for over \$500 there is no charge; (2) For an item sold for a price between \$200 and \$499 there is a charge of \$5; (3) For an item sold for a price of under \$200 there is a charge of \$10. Obviously, it is intended to utilize these certificates primarily for rare and valuable numismatic items.

To request this service, ask for "P.N.G. Certificate" and add the appropriate amount for each coin. Note: this service is also available from other P.N.G. members.

Extremely Rare 1868 Large Cent

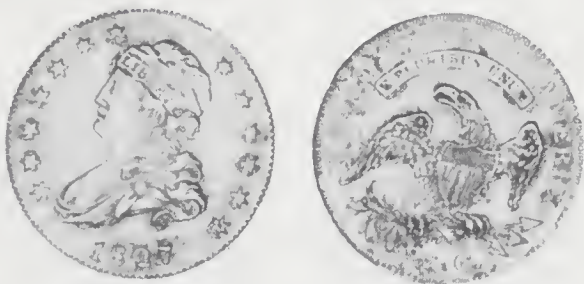

M-354. 1868 large cent. The Century Sale coin catalogued by us for Paramount International Coin Co. in 1965. It is with pleasure that we now offer it again. The 1868 large cent is of the standard 1844-1857 design. Only a few (perhaps fewer than a dozen) pieces were coined in 1868, presumably to create a rarity for sale to collectors — much as the same intention as the coining motives for the 1884 and 1885 trade dollars, 1804 silver dollars, and 1913 Liberty nickels. Regardless of the coining intent, the fact remains that a large cent dated 1868 does exist and, as such, no set of large cents is really complete without this coin, just as no set of trade dollars is really complete without the 1884 and 1885. The contention that 1868 large cents were struck for pattern purposes has no validity, in our opinion, as certainly no coinage of large cents was being contemplated in 1868. The chance to acquire an 1868 large cent occurs very infrequently. Over the years we have had 1868 large cents in about the same frequency as 1894-S dimes, 1838-O half dollars, or 1884 trade dollars — perhaps one every six or seven years. The presently-offered Century Sale coin is a lovely toned Proof..... 9975.00

Rare 1827 Restrike Quarter

M-364. 1827 25c. The Century Sale specimen with square base 2 in 25c; the restrike. The coin is an absolutely beautiful Proof with the most attractive toning imaginable... lilac with subtle overtones of blue and green. 1827 quarters occur in two varieties: originals and restrikes, sometimes known as Type I and Type II. Approximately six or seven originals are known and ten to twelve restrikes. The restrikes were made at the Philadelphia Mint circa 1860-1880 and are contemporaneous with most 1804 dollars, 1840-1848 restrike half cents, and other pieces minted expressly for sale to collectors at the time. Only rarely does an 1827 quarter appear on the market. Price on request.

OLD-TIME CURRENCY SHEETS!

Rare!

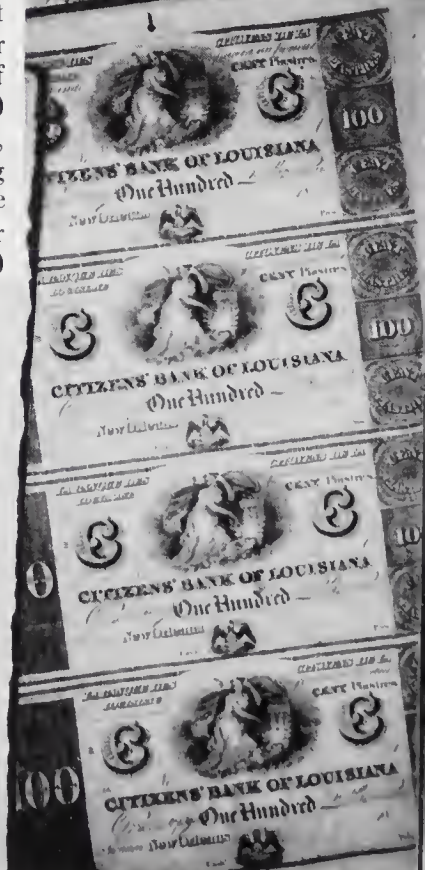

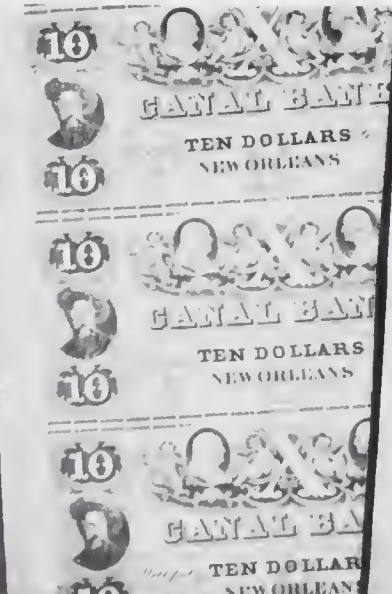

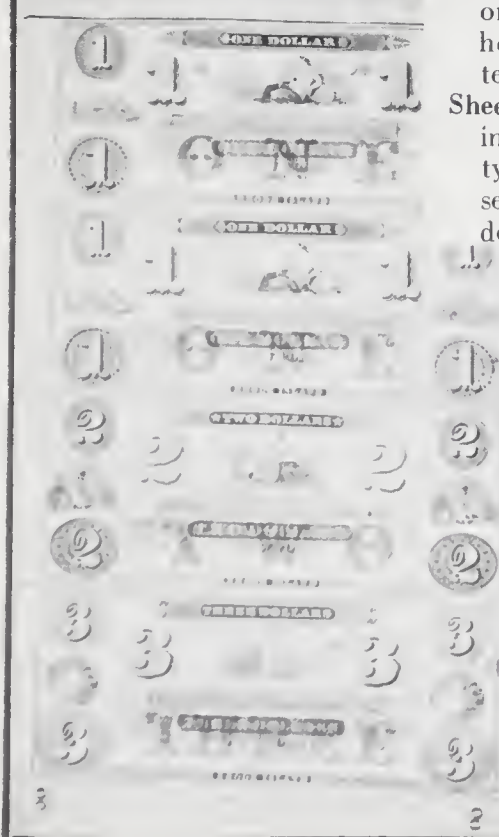

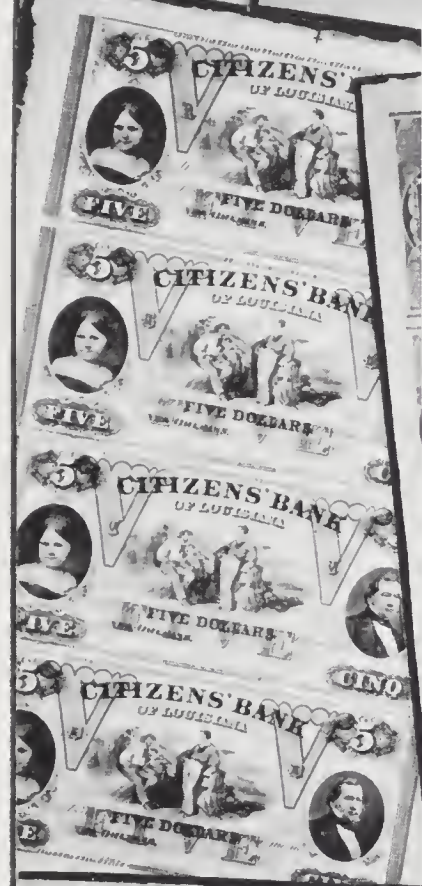

We have acquired a small old-time group of currency dating from the 1830-1860 era. These original sheets, each containing four notes, were printed for banks before the United States government began its own legal tender issues. Each sheet is over 100 years old and is guaranteed to be original and genuine.

Measurements of a typical sheet are: 8½" wide by 14" long. They are of high quality printing and engraving. When framed, a sheet will make a colorful and interesting decoration for your home or office. We have a number of sheets framed and on display here at Bowers and Ruddy Galleries, Inc.

Of particular "human interest" is the sheet with a real \$3 bill!

The craftsmanship and design of these early colorful notes certainly equals the beauty of our early United States notes, which would cost many hundreds or thousands of dollars per sheet! Many of the sheets we offer were printed by the famous American Bank Note Co. Many of the sheets are in two colors. We offer the following Specials:

- Sheet No. 1 — With two \$1 notes, one \$2 note, and one \$3 note. Crisp Uncirculated — and choice (as are all of the sheets we offer) \$14.95
- Sheet No. 2 — With four bills, all of the same denomination (such as four \$5 or four \$20 notes), denomination of our choice. Crisp Uncirculated 12.50
- Sheet Special No. 3 — Three different sheets, including one with a \$3 bill. Crisp Uncirculated, set of three sheets: 29.95
- Sheet No. 4 — Sheet with four \$100.00 (\$400.00 original face value!). Crisp Uncirculated 14.95
- Sheet Special No. 5 — A Collector's Dream! TEN DIFFERENT early sheets, including a sheet with a \$3 bill and a sheet containing four \$100 bills. A nice start on a specialized collection of early bank notes, or a beautiful way to decorate your home or office with numismatic items of rarity and lasting value. The collection of ten sheets, just 119.00
- Sheet Special No. 6 — Our largest and finest sheet collection: twenty different sheets, including a sheet with a \$3 bill, sheets with \$100 bills, and many other interesting types and designs. Each sheet is Crisp Uncirculated. As we only have few of these sets on hand, we limit orders to just one Sheet Special No. 6 per collector or dealer: 199.50

Collection Investment Program

Now, at last, you can participate in a program personally managed by experienced professional numismatists. The **QUALITY** and **AUTHENTICITY** of every coin is absolutely guaranteed. For many years James F. Ruddy, Q. David Bowers, and the other professional numismatists on our staff have helped collectors and investors make large profits in the field of choice and rare United States and world coins. This **PROVEN SUCCESS** is a matter of record. Now this experience and expertise is available for **YOU**. Right now we are accepting a limited number of new accounts in our Collection/Investment Program. If you are interested in rare coins as an investment we invite you to participate in what we consider to be the very best service available today. Read on . . .

Our Service for Collectors and Investors

What coins should I invest in? This question is often asked by the collector or investor who studies the bewildering array of "best bets," "sure things," etc. offered by so-called "investment advisors," many of whom have little professional standing or numismatic experience. A glance at almost any numismatic publication will show dozens of confusing offers in this field.

While short-term speculative profits (and whopping losses, too!) have been made in "special situations" from time to time, we have found in our many years of professional numismatics that the **BEST, GREATEST, and MOST CONSISTENT PROFITS** have been made by investors who buy **QUALITY COINS** — coins that are acquired as part of a meaningful collection and investment program combined.

James F. Ruddy and Q. David Bowers have purchased and resold untold millions of dollars worth of coins during the past

two decades. In the process we have helped to build some of the finest collection/investment portfolios ever assembled. Without exception, to our knowledge, these collections built by us have shown a very attractive profit if the coins were held for a five or ten year period or longer. In many instances the term has been shorter — a diversified \$16,000.00 investment made by us for one of our clients more than doubled in three years, for example. Often the price we've paid has been double, triple, or quadruple the price the owner originally paid us for his coins. Often it has been even far, far more.

Important Reasons for Choosing James F. Ruddy and Q. David Bowers

In his recent and highly-successful book, *How You Can Make Big Profits Investing In Coins*, author Harry Forman had some nice words to say about us; words we consider to be quite important and significant inasmuch as they appeared in the first two pages of his book and inasmuch as **WE WERE THE ONLY DEALER SPECIFICALLY MENTIONED IN THIS REGARD!** Now, Mr. Forman's words:

"Anyone can make predictions, and if he does so in a field in which he is already well known, they are sure to be widely read. Moreover, by waiting until people's memories have somewhat blurred, and then by republishing only his successes, he can often build up a rather good reputation for himself.

"In the numismatic field we have three different kinds of forecasters. The first and commonest is the person who makes predictions simply as a promotional device to help sell whatever he has on hand. I don't say that in all, or even most

— COLLECTION INVESTMENT PROGRAM —

cases, this involves a deliberate deception. On the contrary, the very fact that a person has invested his own money to purchase one or another item would indicate a certain amount of faith in its market potential. But such predictions necessarily lack true discrimination, and depend for their success, if not on luck, then on the progress of the market as a whole.

"A second type of forecaster is the non-professional numismatist who dabbles in speculation and writes books or articles on market trends. Such an individual is more serious in his selections and understands that there are always widespread differences in the potential of various issues and series. But for all that, his livelihood is not dependent on his predictions, and even should they fail he is still reimbursed by his royalties.

"The third and rarest type is the successful full-time dealer who forecasts, not for promotional purposes, but simply to share his insights with the general investing public. My good friend Q. David Bowers is one such forecaster, having given much excellent investment advice through the *Empire Review* and more recently through the *Rare Coin Review* (the periodical magazine issued by Bowers and Ruddy Galleries, Inc. of Hollywood, California)."

James F. Ruddy of our staff has likewise been honored by many other writers and organizations. The Professional Numismatists Guild's *Distinguished Service Award* is but one of the many professional recognitions he has received. Numismatic research and study have brought many rewards his way.

Photograde, the book on coin grading, has been so successful that it has gone through many large printings and has been accepted as standard by leading dealers, collectors, and numismatic organizations everywhere. Many important numismatic discoveries have been made by James F. Ruddy. To cite but one of many examples, he first identified in our research department the 1888/7 overdate Indian cent.

There is a Difference — An Important One ...

There are many "numismatic advisory services" of one sort or another. We think it is important. Correction: we think that

it is ESSENTIAL for your success that you exercise careful judgment when selecting a firm with which to do business.

If you are contemplating investing in coins, be CRITICAL. Ask if the firm:

*IS RECOGNIZED IN THE NUMISMATIC PROFESSION. Bowers and Ruddy Galleries and/or James F. Ruddy and Q. David Bowers are members of the Professional Numismatists Guild (as noted, James F. Ruddy received the PNG's Distinguished Service Award), the prestigious International Association of Professional Numismatists (IAPN), the American Numismatic Association (Q. David Bowers is life member 336; James F. Ruddy is life member 337), and other leading organizations worldwide. The firm has served as a consultant to numismatic organizations and government agencies on matters involving authenticity.

*HAS BEEN SUCCESSFUL IN THE PAST. James F. Ruddy and Q. David Bowers have PROVEN EXPERIENCE and an OUTSTANDING RECORD OF SUCCESS in the past. On the front page of one of its issues *The Forecaster*, America's leading coin investment newsletter, introduced an article by Q. David Bowers by stating that: "Mr. Bowers is a director of Bowers and Ruddy Galleries, Inc., Hollywood, California. Famous author, scholar, and friend, David Bowers has a degree in finance and is conversant with the present international monetary instability. In the past when Dave made recommendations in confidential *Forecaster* articles, those who took his suggestions made nice profits.... His partner, incidentally, is the same Jim Ruddy of *Photograde* fame—the grading standard of the industry." The comments of Harry Forman quoted earlier represent another example of recognized success. Other examples abound.

Yes, it is important to ask the preceding questions and others before you spend a cent. Also ask: Can I be sure that I will receive the QUALITY and VALUE I pay for? (This is a most important question, for if you are not familiar with quality and value you are placing your investment in jeopardy if you do not buy from an established professional dealer.) Bowers and Ruddy Galleries absolutely guarantees the QUALITY and VALUE of each item sold.

Can I have confidence in the firm? Are they sincerely interested in giving me GOOD ADVICE or are they mainly

— COLLECTION INVESTMENT PROGRAM —

interested in just selling me coins? Ponder these questions carefully. We believe that Bowers and Ruddy Galleries, Inc. comes up with the right answers to each. And, this is an important difference — a difference which is most important to your investment success.

Our Collection/Investment Programs

Our Collection/Investment Programs offer a number of advantages. You enjoy the prestige and satisfaction of doing business with one of the world's largest and most respected numismatic firms; a firm which has handled millions of dollars worth of coins, including nearly every major rarity in the book; a firm of unquestioned financial reputation and integrity.

By means of our Collection/Investment Programs you can build an **IMPORTANT** and **MEANINGFUL** group of rare coins simply by making payments at your convenience. Over the years our clients have found rare coins to have been a wonderful hedge against inflation. Coins represent an outstanding investment with excellent potential for future appreciation. Our Collection/Investment Programs make it easy for you to assemble a group of really **CHOICE** and **HIGH-QUALITY** coins.

There are no service charges of any kind to pay. You pay just our regular competitive market price for coins—sometimes even less (in the instances of quantity purchases when we pass a special buy on to you), but **NEVER** more! There are no postage and handling charges, no advisory fees, no “extras” of any kind.

YOU ARE UNDER NO OBLIGATION. You are not signing any tricky contract. If you are not 100% delighted with the coins you receive in our Collection/Investment Program you can cancel without notice at any time simply by discontinuing your payments. You won't owe us a thing—and we won't owe you a thing. By each maintaining our independence we are in the spotlight — we have your “command performance” to provide the **QUALITY** and **VALUE** you demand.

FIRST CHOICE: When you participate in our Collection/Investment Program you have first pick of the **LARGEST AND FINEST STOCK OF SELECTED CHOICE AND RARE U.S. COINS** in existence and one of the finest stocks of world

coins. As new collections and other purchases are constantly being added to our inventory you'll get first pick of many of the most desirable pieces.

YOU DO BUSINESS WITH AN ESTABLISHED FIRM. James F. Ruddy **PERSONALLY** supervises the program and **PERSONALLY SELECTS** the United States coins you will receive, with the assistance of Q. David Bowers. Karl Stephens selects coins of the world. The experience of James F. Ruddy, Q. David Bowers, Karl Stephens, and other professional numismatists on our staff is an advantage that is priceless: an advantage that money can't otherwise buy.

Advantages for Us

The Collection/Investment Program has two main advantages for us. In a way they are advantages for you, too! They are:

(1) We are able to place directly many beautiful coins without the expense of “sold out” letters, credit problems, advertising preparation and listing, catalogue preparation, etc.—resulting in a savings for us. In a high-volume, low-margin-of-profit business this savings can be quite important.

(2) Our main problem is buying coins, not selling them! By placing with selected buyers such as yourself these choice coins we hope to have the opportunity to buy them back someday. There is no obligation for you to sell your coins back to us. You can sell them wherever you please—as the marketplace is free and competitive. However, it has been our happy experience that many, many collectors and investors who purchased choice United States coins from us back in the 1950's and 1960's have kept us in mind—and we have bought their holdings when they were later re-offered to us. Without exception, to our knowledge, each seller has realized a substantial profit! So, by selling you **CHOICE COINS OF HIGH QUALITY** today we hope you'll keep us in mind in the future, and that you'll help us with our purchase requirements five, ten, or fifteen years from now!

How Our Collection/Investment Program Works

Each month (or other interval you choose) we will sell you a group of choice high-quality coins. These pieces will be coins

— COLLECTION INVESTMENT PROGRAM —

with established numismatic values (as opposed to recent speculative issues). Coins will be in **HIGHER GRADES**: Uncirculated or Proof, or in the instance of certain rarities or very early pieces, in Fine or better condition.

If you are interested in short-term speculation, this program is **NOT** for you, and we respectfully recommend that you buy elsewhere. There are countless "investment advisors" in the field of modern speculative issues, and we're not among them. We are **ESTABLISHED PROFESSIONAL NUMISMATISTS** with a proud heritage to protect—and we are not about to change our style! You'll receive **CHOICE COINS OF PROVEN SCARCITY AND VALUE**.

These coins will be like those which have paced the market in the past: scarce gold coins, Uncirculated silver dollars, choice United States type coins (coins needed for inclusion in type sets), key dates, and similar items. Circulated modern coins of the type that are not rare now, nor will they be rare in the foreseeable future, will **NOT** be included! Rather, you will receive the "blue chips" of numismatics.

Each month (or other interval) you send us \$100, \$250, \$500, \$1000, or more. We will then send you choice coins as described above. Each coin will be graded carefully and will be priced and invoiced individually, so you can maintain a record of your purchases (and we will keep a record here also).

GUARANTEE: Here is what we guarantee: We guarantee that you will find our grading to be accurate and the price paid to be reasonable. After receiving your coins you have seven full days to consider the coins, examine them, have them appraised by others, and to consider them in any other way that you wish. If, **FOR ANY REASON WHATSOEVER**, you are not 100% delighted, your money will be refunded in full as per our guarantee. There is no red tape. In fact, no explanation is necessary!

GUARANTEED AUTHENTICITY: Each and every coin sold to you is absolutely guaranteed authentic. Over the years we have acted as consultants to government agencies, numismatic publications, and others in matters involving authenticity. You can be sure when you buy from Bowers and Ruddy Galleries, Inc.

A Limited Program

Even with our large inventory and unequalled buying facilities we cannot service a great number of participants in our Collection/Investment Program. By their very definition rare coins are rare—and, thus, we must limit the Program to the number of clients that James F. Ruddy, Q. David Bowers, and Karl Stephens can personally supervise and to the number for which we can supply choice coins. We offer this program in only a few selected places. We are not seeking a high-volume business in this regard. This is a custom program conducted on a very personal basis. We hope you'll understand.

Right now we offer the Collection/Investment Program in the following categories. Pick a favorite, if you have one. If not, then we respectfully suggest our general Collection/Investment Program which covers a wide range of issues or, if you are among the many interested in gold coins, then we recommend our Gold Coin Purchase Plan.

Here are the Programs we offer:

Collection/Investment Program

The basic Collection/Investment Program consists of investment in selected choice United States coins of various series. Over a period of time you will receive beautiful copper, nickel, silver, and gold issues, commemoratives, "key" dates, and other pieces similar to those which have been winners in the past. The Collection/Investment Program is carefully diversified. If you are undecided as to which Program to choose or if you have no preference, we recommend the Collection/Investment Program as listed below.

Program No. 2	\$100 per month
Program No. 3	\$250 per month
Program No. 4	\$500 per month
Program No. 5	\$1000 per month

Note: If you want to invest \$50 per month or some amount less than our minimum \$100 plan, then accumulate your money and send us, say, \$100 every second month under our Program No. 2.

— COLLECTION INVESTMENT PROGRAM —

Selected Silver Dollar
Collection/Investment Program

The Selected Silver Dollar Collection/Investment Program offers the collector and investor the opportunity to buy choice, selected Uncirculated United States silver dollars of top quality—the quality referred to as gem, choice, or Mint State 65 or Mint State 70.

You will receive selected hand-picked pieces in the Morgan (1878-1921) and Peace (1921-1935) series. If you're interested in silver dollars and want top quality, this program is for you. And, in the silver dollar market (as in other coin markets) an emphasis on QUALITY pays off when the time comes to sell your collection and investment. Here are the Programs available:

Silver Dollar Program No. SD-2	\$100 per month
Silver Dollar Program No. SD-3	\$250 per month
Silver Dollar Program No. SD-4	\$500 per month
Silver Dollar Program No. SD-5	\$1000 per month

COMMEMORATIVE COLLECTION PLAN

The Commemorative Collection Plan features all different issues—from the first Columbian half dollars of 1892 through to the Washington-Carver issues of the 1950's. The field of United States commemorative half dollars covers 48 different and distinctive types, each issued in celebration of an historical event. Your set will include one each of the 48 types plus the 1893 Isabella quarter and the 1900 Lafayette dollar. The condition of each coin will be choice Brilliant Uncirculated: the BEST QUALITY available. With your first order we'll send you a special album to house your collection.

Note: We can build for you a complete set of all dates, mintmarks, and specialized varieties of commemorative silver coins—144 pieces in all. This will require a minimum payment of \$250 per month. If you would rather have us start a complete set (rather than a type set), please note "Complete Set of Varieties" when you send your first payment of \$250 or more. Otherwise we will start a type set for you.

The following Commemorative Collection Plans are available:

Commemorative Plan No. CP-2		\$100.00 per month
Commemorative Plan No. CP-3		250.00 per month
Commemorative Plan No. CP-4		500.00 per month
Commemorative Plan No. CP-5		1000.00 per month

Your First Step to Investment Success

To begin the program which interests you most, just send us a check representing the first month's payment. As noted, you are under no obligation of any kind—either to keep the coins received or to continue the program in the future. On a month-to-month basis we'll do our best to deliver to you what we consider to be the BEST VALUES in the coin field today. We think you'll be really pleased!

Send your check to the personal attention of James F. Ruddy. This will start what we hope will be a long and mutually beneficial relationship between you and Bowers and Ruddy Galleries, Inc. Others have found our way of doing business to be the ideal way to assemble a meaningful group of truly choice and beautiful coins. We are confident that you will be enthusiastic also.

COINS OF THE WORLD PLAN

GOLD COIN PURCHASE PLAN

The Ideal Way to Buy Gold Coins!

GOLD COIN PURCHASE PLAN

Gold coins have been very much in the news in recent years. The beauty and appeal of gold coins—coins made of mankind's most famous metal—are being realized by collectors everywhere.

How can I buy gold coins easily? How can I be sure I am getting genuine pieces? What about grading? These are questions which are asked by many buyers.

Now those questions are answered for you. Bowers and Ruddy Galleries offers you an easy and convenient way to buy gold coins—our Gold Coin Purchase Plan backed by our famous money-back guarantee.

We offer you a choice of ways to buy gold coins. You can pick the plan best suited to your own requirements. Here are the advantages:

Quality and Value Guaranteed

When you buy gold coins from Bowers and Ruddy Galleries, Inc. you are assured of receiving genuine, original issues. Each and every coin is absolutely guaranteed to be authentic.

And each and every coin is covered by our money-back guarantee of satisfaction. You must be pleased with the value of each coin, its appearance, and the value received for your money—or the coins may be returned within seven days for an instant refund without question. We are not satisfied until you are!

Each shipment will be sent to you postpaid. All transactions will be kept in strict confidence. Each coin will be in its own container and will be clearly marked with the date, mintmark (if any), variety, condition, and price paid. We take care of all the paperwork. Our Gold Coin Purchase Plan makes buying gold coins easy!

Here are our Plans:

Gold Coin Purchase Plan No. 1

This plan is for the buyer who wants to receive a high intrinsic or metallic value with each coin. Emphasis is placed on issues with a high gold content: United States \$20 gold pieces, British gold sovereigns, Mexican 50-peso gold pieces, and similar issues. Scarce or rare dates are not included. You can make a one-time purchase for the amount of your choice, or you can order from us regularly each month or other interval of your choosing. All coins will be selected for you by James F. Ruddy and, as noted, are guaranteed genuine and are guaranteed to satisfy you.

The following Gold Coin Purchase Plan No. 1 options are available:

Gold Coin Purchase Plan No. 1-A	\$250.00 per month
Gold Coin Purchase Plan No. 1-B	500.00 per month
Gold Coin Purchase Plan No. 1-C	1000.00 per month
Gold Coin Purchase Plan No. 1-D	2500.00 per month
Gold Coin Purchase Plan No. 1-E	5000.00 per month

Or you can make a one-time (rather than on monthly or other regular payments) purchase of a group of gold coins for any amount (minimum: \$250).

You are under no obligation of any kind—either to keep the coins received or to continue our Gold Coin Purchase Plan in the future. As noted earlier, we accept (and enjoy!) the challenge of a “command performance,” and on a monthly basis we’ll do our best to deliver to you what we consider to be the best values. We are sure you’ll be pleased.

To start: Just send us your initial payment of \$250 or more—and tell us whether you want a one-time shipment or whether you would like to order from us regularly on a monthly basis.

Gold Coin Purchase Plan No. 2

This plan is for the buyer who would like to form a collection of different date and mintmark varieties of United States gold coins—including scarce issues and scarce denominations (such as \$1, \$2½, and \$3). Coins sent will all be different. We will keep a list of the dates and mintmarks you receive, so that over a period of time you will build a beautiful collection of American gold coins.

As is true of our other Plans, there is no obligation to keep the coins received (any item may be returned within seven days for an instant refund) or to continue your participation in our Plan. Your satisfaction is guaranteed!

The following Gold Coin Purchase Plan No. 2 options are available:

Gold Coin Purchase Plan No. 2-A	\$250.00 per month
Gold Coin Purchase Plan No. 2-B	500.00 per month
Gold Coin Purchase Plan No. 2-C	1000.00 per month

Gold Coin Purchase Plan No. 2-E	5000.00 per month

U.S. Type Set Collection Plan

A Convenient Way to Collect

For the busy collector or investor who wants to assemble a choice set of coins but who hasn't the time to spend intensively searching for each item we offer our U.S. Type Set Collection Plan.

This plan enables you to build a set of major United States design types. To house your collection you'll receive two Whitman "Bookshelf" albums free of charge with your first order. As each month's selections arrive you can place them in the album for display.

20th century issues in your type set will be in beautiful Uncirculated and Proof grades. 19th century issues will be Fine to Proof. The type set will contain representative examples of major design types. For instance, the series of U.S. nickel three-cent pieces from 1865 will be illustrated by a single coin—one of the inexpensive dates—from that period. (This is in contrast to a date set of coins which would include one of each date and variety.)

As your type set grows you will enjoy watching the panorama of United States coinage unfold before you. For interest, educational value, and for investment for the future the U.S. Type Set Collection Plan has a lot to recommend it. This plan has been very popular over the years, and we have a large file of compliments from delighted participants!

We Do the Work for You!

We will keep a "want list" of the items you still need for your Type Set Collection Plan, so there's no paperwork or other effort for you to do! When your coins arrive all you have to do is to check them (to be sure that they represent the condition and value you expect) and put them in your album. As your set grows it will be a beautiful display item you'll be proud to own.

True Numismatic Pieces

The coins selected for your type set will be the quality you expect and will be true numismatic items. Our constant purchases of leading collections and rare individual pieces

assures you of receiving the scarcer as well as the commoner issues in your type set at prices you'll find to be excellent values.

As selected United States type coins have increased in value handsomely over the years, your collection should be a nice "blue chip" investment for the future. Equally important, you and your entire family will enjoy the educational and historical aspects of these coins from America's past.

Some Comments We've Received

We share with you some of the comments we've received concerning our United States Type Set Collection Plan:

"I am thrilled with the first coins received from you. My set is already quite an attraction—and I can hardly wait until next month's selections arrive."

"I like your quality on the other orders received from you, and if the coins in your Plan are as nice I know I'll be pleased."

"I am very pleased with my coins received so far. My family is getting interested too, and we've all been discussing what an educational opportunity the type set represents."

"It is nice to know that there is a monthly plan which offers truly desirable numismatic items of lasting value."

"My wife and children are fascinated with the coins you've been sending me. This is the first investment I've ever had which has captured the interest and enthusiasm of my whole family—and that's great!"

We are sure that you, too, will be equally enthusiastic when you receive your coins. In fact, we guarantee you'll be pleased!

We are pleased to make this unusual offer of the scarce silver 100 leva coins of Boris III of Bulgaria. These crowns were struck in 1934 and 1937. The ravages of World War II and the communist takeover of the country took their toll on the number of pieces remaining. In recent years these coins have become very scarce. We offer 1937 pieces as follows: EF-AU \$6.95; three EF-AU pieces \$19.50; Brilliant Uncirculated

1911 George V. The 1911 large cent is in particular demand as the only year of this design type. To conserve copper the Canadian large-size cent was discontinued before all of the 1920 pieces were made. The small size cent made its appearance in that year. The coin is the same size as the contemporary U.S. cent.

Canada — Silver Dollars

Canadian silver dollars are becoming more and more difficult to locate in better grades. It appears that the values of the dollars are now beginning to move upward, in line with their scarcity. We anticipate that prices will advance sharply within the next few years. We believe that today's market represents a favorable buying opportunity. Use this listing to start a collection of Canadian silver dollars or to add to your present set.

Note: Unlike the preceding issues, the silver dollars of 1945 through 1948 tend to have a common characteristic: what appears to be a light "rubbing" on the cheek and neck. This is typical on almost all of these coins, even ones freshly taken from bank rolls.

Early Pesos of Dominican Republic

The first peso issued was struck in 1891 under the French monetary system. As adopted, the new unit of exchange was the "FRANCO" which was divided into 100 centesimos. The coins followed all coinage regulations as to weight, alloy, etc. These were high in silver content and quite beautiful in design:

1891-A (Paris) 5 FRANCO. T-10, E-1. On obverse: "Republica Dominicana", coat of arms. Reverse: "CINCO FRANCO", date, head of female native. A very light dig in the obverse field at base of neck keeps it from being a select specimen. Still Uncirculated at . . 230.00

The second crown size coins of the Dominican Republic were issued in 1897. The dies for the coins were made in Paris, France, but the actual striking was done at the Philadelphia Mint. The Pesos were made with a bad alloy, containing a very low silver content, were not well struck and sometimes even broke in two. Most coins are found in very worn condition, and to find one in high grade takes a great deal of searching. We offer the following:

1897 PESO. Y-14. VG \$14.50; Fine \$18.00; Beautiful STRONG EF-AU, way above average \$85.00; superb AU-Unc. \$175.00; a small planchet flaw (struck into the coin) does not harm this beautiful RARE Brilliant Uncirculated	275.00

QUALITY COINS / ACCURATE GRADING

"Enclosed is another order for some coins. I know that they will come up to my expectations. Bowers and Ruddy Galleries sometimes charges a little more for its coins, but so does a Cadillac cost more than a Volkswagen. What I mean is that you really get what you pay for at Bowers and Ruddy Galleries, Inc. — and the quality of your coins and the accuracy of your grading is well worth the few extra dollars." — an unsolicited comment from D.B. of Blytheville, Arkansas.

"I KNOW I SHALL RECEIVE WHAT I ORDER"

"Enclosed is another order. At this time I would like to thank you for the previous orders I have received from you. I have ordered coins from many different dealers, and to date Bowers and Ruddy Galleries is the only one which I can put my faith in. I know I shall receive what I order. Thank you very much." — an unsolicited comment from D.B. of Anchorage, Alaska.

We offer for sale a nice group of individual Maundy sets — from Charles II to modern times. Unless noted otherwise, all sets contain four pieces: the silver penny, twopence, threepence, and fourpence. Except for very early years (which are graded as described) all sets are in Uncirculated or Proof condition. There is a nice opportunity to build a type set of Maundy sets or to start a date collection. Nearly every set is one-of-a-kind in our stock, so if you are ordering for a type set, please put "same type" as your second choice on your order blank. Thank you.

Maundy Oddments — For the Type Collector

We are pleased to offer a choice group of individual Maundy coins dating from Charles II (1660-1684) through Elizabeth II (1953 to date). We purchased this large group at what we consider to be a very low price — and we pass our savings right along to you.

Consider adding a representation of Maundy money to your collection. We think you'll find these coins to be interesting from both the historical and numismatic viewpoints. A number of ways to collect Maundy coins suggest themselves. You might consider one coin from each monarch or perhaps one of each denomination from each monarch.

In addition to listing pieces by types, we list individual scarce issues. So you can order either way.

SPECIAL MAUNDY OFFER: With every order we fill for \$25 or more worth of Maundy coins from our oddment section we will send you on request a free copy of Richard Trowbridge's new second edition of "Maundy Coins of Great Britain." Request "Maundy Reference Offer" when ordering.

Any collector of Scandinavian coins will be interested in this Norwegian Wedding Medal. This beautiful silver medal has the portrait of King Haakon VII and his bride on the obverse, and the reverse depicts a lovely cathedral scene with date and legend. Delicate blues, golds and muted rainbow tones greatly enhance the delicacy in detail of this piece, said to have been originally presented to a German Ambassador, who like other guests, received these at the wedding. This truly beautiful medal is offered with its original case of issue. Certain to go quickly. 1906 Uncirculated

1912 1 Ruble. Y-68; D-296. Centenary of Napoleon's defeat 1812/1912. Napoleon and his army invaded Russia and pushed all the way to Moscow in 1812. He was defeated soundly, however, by a cruel Russian winter, lack of supplies, and Russian guerrilla tactics. The obverse of the coin shows a two-headed Byzantine eagle with St. George and the dragon on the center shield. Surrounding are six coats of arms representing the various Russian provinces. The reverse inscription translates to read: "1812 — This famous year has passed by but the heroic deeds accomplished during it never fade — 1912." Only 26,500 minted. Beautifully toned Abt. Mexico

After many heroic years of struggle, the army of the three Guarantees, headed by its leader, commander General Agustin de Iturbide marched triumphantly into the capital of New Spain. The struggle for Independence that began with Miguel Hidalgo y Castilla in 1810, culminated with the Iturbide victory.

He was proclaimed "Emperor of Mexico" on May 21st, 1822. His reign proved to be a short one and the coinage and currency issued during this brief time is highly sought after by collectors.

It was during this 1822-1823 period that the very first paper money of Mexico was ever issued. Un and Dos Peso notes were issued on parchment like paper and watermarked. These notes did not meet with the approval of the public and after the formation of the new Republic they were accepted only as part payment for taxes.

We are very pleased to offer, the very scarce Un peso Iturbide note. Catalogued in Gaytan No. D.F. 60. This note has sold for over catalog value of \$240.00 in the past. India Gold Fanams

Our most popular offer in the gold section in the last "Review" was the beautiful Indian Fanam of Travencore (Indian state). We have decided to once again make this special offer to our customers. We know it will be a sell out, so we suggest you order early to avoid disappointment.

This offering gives the collector the opportunity to acquire many different types from Mysore, Malabar, Tanjore, as well as other exotic states, and we will enclose an easy to read identification chart with each order. We know if you buy one of the little "gold jewels" you'll want more everyone does.

We offer one "gold Fanam" (type of our choice). VF-EF at \$6.75 each; three different VF-EF at \$19.50; five different VF-EF at 32.50

The RARE 8 ESCUDOS OF AGUSTIN ITURBIDE (1822-1823). F-59; H-57. Rarely does a coin of such quality and rarity come upon the numismatic market. As you can see from the plate picture, this coin is truly superb. The-1822- Mo. J.M. 8 Escudos was the only gold denomination of Iturbide for this year. It carries the bust of Agustin (small head) and was thought to be struck shortly after he was proclaimed "Emperor" of Mexico. The reverse shows the small eagle on the "Nopal" (which was first used on the 8 reales) with the addition of a pile of arms. This particular coin is one of the finest "Iturbides" known, and we suggest a phone call to order this truly spectacular coin. Superb AU 3550.00

LIKES OUR CATALOGUES

"Dear Jim and Dave: Thank you for your American Auction Association sale catalogue. I am enclosing my bid sheet. As always, your catalogue is a masterpiece. Thank you again." — an unsolicited comment from Dr. R.A. of Portland, Oregon.

THE ONLY ONE!

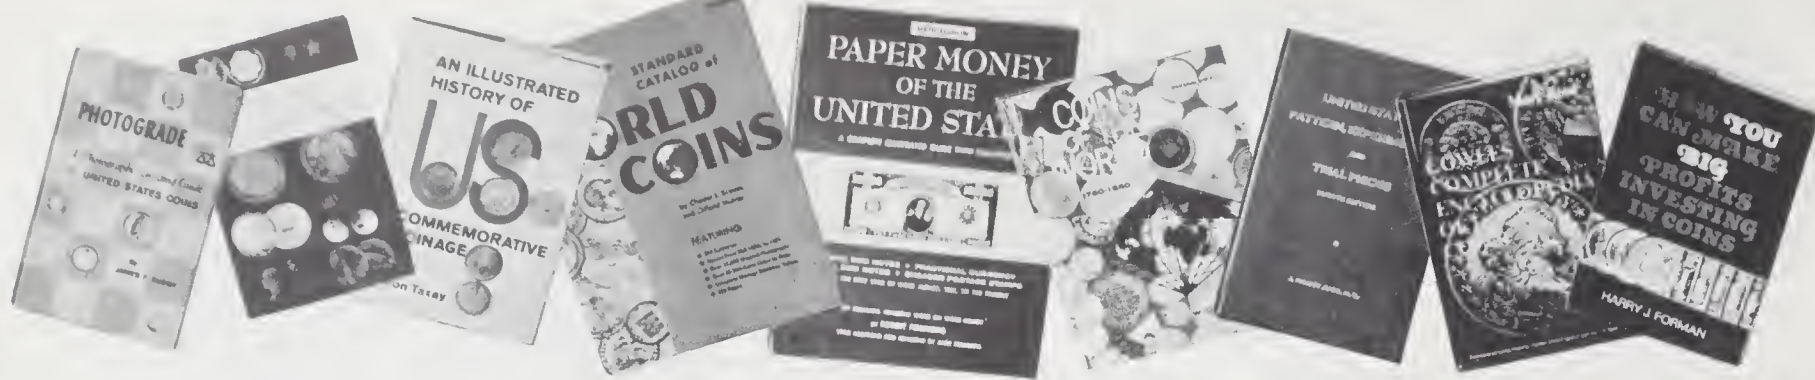

"Thank you for your sale catalogue for your auction. I will not be able to attend in person, but I must assure you that it will be my pleasure to bid by mail.

"I am twenty five years old, and over the last ten years I have spent thousands of dollars on United States and Mexican coins. I have dealt with dozens of dealers, and Bowers and Ruddy Galleries is the ONLY completely honest and truthful United States coin dealer that I know of. You rival the Weill Brothers of New Orleans; they are tops in the stamp field.

"Thank you for your integrity. Good luck with the [American Auction Association] auction sale. My bid sheet is enclosed. Regards to you and your staff."

— an unsolicited letter from G.B.H. III of Aspen, Colorado.

The book is a chatty and informative history of coins, collectors, and coin collecting over the years — all presented in an interesting and readable manner. The great commemorative craze of the 1930's, the stories of Col. Green, King Farouk, B. Max Mehl, and other super-collectors and dealers are told — not to mention the Columbian Exposition, some thoughts on coin investment, and dozens of other topics. Fascinating reading! Autographed to you on request. 214 pages. Hardbound. \$5.95 (Stock No. BB-1)

OUR COLONIAL HERITAGE IN COINS

by Maurice M. Gould

Maurice M. Gould, internationally-known numismatic writer, has prepared the following article especially for this issue of the Rare Coin Review.

In my more than fifty years of involvement in the numismatic hobby, both as a professional dealer and as a collector, I have covered almost every country and every facet of the field, including "odd and curious," tokens, paper money, and errors—but there is one specialty which has never ceased to fascinate me from the time I was nine years old: the colonial coins of the United States. Numismatics has been my avocation, then my vocation, and now my avocation again, and I am still involved with colonials.

I lived in the Boston area most of my life. This presented a great opportunity to acquire these coins, so I have built up a fine collection over the years. "What are the possibilities of assembling a choice collection of colonials today?," you might ask. Some may say it is too late to start collecting coins of this early period of our country, but the time to start is the present, as in 1976 we will have the bicentennial year of our country and many thousands of new collectors will be looking for this material. Of course, there will be fewer of these coins available at that time.

As I became more involved with colonials I became completely enamored with the historic impact of this coinage, the great men who participated in the history of the times, and it all became familiar to me. The background, economics, art, and history of the times gave me much insight into the forces which had impelled our forefathers to mint their own coins. The trials and errors they had to endure were tremendous. Yet they persevered. Today colonial coins survive as mementoes of those long-ago days.

There are a number of ways to collect colonial coins. Some try to acquire them all, including all dates and major die varieties. Some collect specific areas such as pieces manufactured in this country or pieces struck in England for distribution in America. Finally there is the "type" collector.

Collecting by types is the most practical method today. Even this can be broken down further to suit one's particular needs or desires.

The very earliest pieces, such as the New England (NE) coinage as well as the Willow Tree, are quite rare and seldom offered for sale. However, both Oak Tree and Pine Tree pieces of great historical significance, are usually available. The Oak Tree comes in the following denominations: twopence (which is dated 1662), and the 1652-dated threepence, sixpence, and shilling. The Pine Tree coinage comes in three denominations: threepence, sixpence, and shilling, all dated 1652. To my mind the Pine Tree pieces are among the most historic of all American colonial coins.

When the Massachusetts Bay Colony established its early mint, John Hull of Boston was selected as its director. He was a successful and skillful silversmith and had excellent qualifications for the position. His compensation was to retain one shilling out of every twenty he produced. Robert Sanderson became his associate. The General Court of Massachusetts ordered that a "mint house made of wood, to be 16' square and 10' high, be erected upon the land of John Hull."

When Hull was ready to commence his operation all persons who had bullion, silver plate or Spanish silver coins were allowed to bring them to the mint and to wait while their pieces were being melted, refined, and alloyed. They then obtained a receipt from the mintmaster. The receipt could then be exchanged for shillings, sixpence pieces, or other coins produced by the mint.

The pine tree was a favored symbol of the Massachusetts authorities. It was used on the state flag and on many other state insignias.

An interesting story, probably more fiction than fact, that has never been authenticated, pertains to Mintmaster Hull, who became one of the wealthiest men in the colony due to the mint's operations. When his daughter married Samuel Sewall he gave her a dowry of Pine Tree shillings equal to her own weight. She was placed on one side of the scales and the shillings were placed on the other side until the scales balanced. According to records from a diary she weighed 125 pounds, which would have been equal to nearly 50,000 shillings!

Many of these coins in collections today are clipped or damaged as they originally saw quite a bit of hard usage. Top grade specimens are always in strong demand.

The later Massachusetts colonial coinage of 1787 and 1788 consisted of copper pieces of the denominations of half cent and cent. These were the first American coins to actually bear the "half cent" and "one cent" values. Previously, such pieces were designated as halfpennies and pennies.

Joshua Witherle was appointed master of the mint in May, 1787. When the necessary equipment was ready the order was given to produce \$70,000 in copper cents and half cents. Witherle established his works on The Neck and at Dedham. The copper was first carted to Dedham to be rolled out in strips for planchet making. Then it was carted back to Boston to be coined. I lived only a few miles from the Dedham historic site for many years. A number of times I went out to try to locate some memorabilia from this early mint, but I never had any success.

Massachusetts cents and half cents were struck for just two years, 1787 and 1788. Coinage was suspended when it was learned that each coin cost twice its face value to produce! Specimens of copper coins of these years are still available today in sharp condition for fairly reasonable prices.

1787 Fugio cents were made during the same era. These are sometimes called "Franklin cents." Struck on a contract basis in New York and Connecticut by private coiners, these Fugio cents were the first coins issued by the official authority of the United States government. There are numerous die varieties of Fugio cents. A great deal of research has been done on these pieces. Eric Newman, a prolific author in the colonial field, has produced a listing of die varieties of Fugio coins.

"Mind Your Business," the slogan which appears on Fugio coins, is the excellent suggestion of Benjamin Franklin.

The popular and historic Fugio cents can still be obtained for fairly reasonable prices for many pieces were struck. During the 19th century the New Haven restrike Fugio cents were made. These coins have narrower rings on the reverse and are recognized as separate varieties by collectors today.

Numerous medals and tokens have been struck to honor the Father of our Country. Collecting these has become very popular in recent years. The classic reference on Washington material is *The Medallic Portraits of Washington*, by W.S. Baker. This book is available today in reprint form.

Many Washington pieces were struck in England after the conclusion of the Revolutionary War. Some of these are from beautifully engraved dies. Even though they were struck abroad, these coins have been accepted as part of the American colonial series.

Collected also are Washington funeral medals. Most known specimens are in white metal or silver, holed at the top for suspension from a ribbon. A few pieces are known in gold. These funeral medals were issued in 1800 and were worn in various processions and other observances honoring the president.

One of the most unusual and rare Washington medals is the famous "Ugly Head." This satirical medal of the famous statesman, in profile, shows him without his wig and with his false teeth removed, giving him a grotesque appearance. The reverse of this coin has a chain of 13 rings, each bearing the name of one of the 13 colonies. In the center are the figures "84," probably for the year 1784. The face of the medal has the legend, WASHINGTON THE GREAT D.G.

Very little is known concerning the origin of the "Ugly Head" piece. Most of the few specimens discovered have been found in the Boston area, lending credence to the belief that they were probably struck by a group of Tories who would go to any length to belittle and besmirch the great hero of the Revolution.

If you wish to begin your collection of colonial coins with a series priced very reasonably, try Connecticut coinage. These pieces are dated from 1785 through 1788 and cover many fascinating varieties, crude and imperfect planchets, and other interesting features. Popular varieties bear such names as "Muttonhead," "African Head," "Hercules Head," "Mailed Bust," "Draped Bust," and "Horned Bust," the latter having a hornlike die break projecting from the portrait! To top it off we have the "Laughing Head" variety.

New Jersey cents are also quite reasonably priced. These run from 1786 through 1788. There are some rarities, the Washington obverse, the Immunis Columbia, and the date under plow beam being examples. However, there are many popular and inexpensive varieties as well. Interesting among these are the "Serpent Head," "Running Fox," and "Bridle" pieces.

Some Vermont varieties 1785-1788

Copper coins issued by the state of Vermont are also dated from 1785 through 1788 and come in many varieties. One of my personal favorites is the 1786 "Baby Head." I have studied this coin for years and feel that it is undervalued on today's market. Many of the Vermont pieces are crudely or weakly struck. Well struck specimens are worth a good premium.

On the whole, New York colonial pieces are more difficult to obtain than are specimens from the three states previously mentioned, but there are a few dated 1787, called the "Nova Eborae" issues, which are still obtainable for relatively low prices.

Virginia had very few different pieces struck. All are considered to be patterns, with the exception of the 1773 halfpenny. This variety is still obtainable for a nominal sum in choice condition, as a keg of Uncirculated pieces was discovered many years ago. This is possibly the only colonial coin which can be relatively easily obtained in Uncirculated grade.

While some of the other states had coinage, they issued just a few different pieces and not a wide range of dates, types, or die varieties.

Very few dealers specialize in this field of numismatics. In my opinion it is advisable to deal with someone who is knowledgeable in this specialized area. In this connection I have many nice memories of my dealings over the years with Jim Ruddy and Q. David Bowers. It was Dave Bowers who gave me a clue in my collecting of United States counterstamped large cents that some pieces might be the hallmarks of early silversmiths. Eventually I published a listing of the Bowers discoveries plus my own findings.

During the early years of United States numismatics, American colonial coins and currency were among the most popular items. The auction records of sales held during the 19th century show that many of the highest prices realized were for colonial issues. Tradesmen's cards, tokens, and medalets were also popular and brought astounding prices. Habits of the collector have changed a number of times during the past hundred years. Now tokens, medals, and especially colonial coins are coming again into their own. Even so, many of these pieces are sharply undervalued in comparison to what far commoner U.S. mint issues of the 19th and 20th centuries sell for.

While it is usually not thought of as a colonial coin, the famed Pillar Dollar, one of the world's greatest trade coins, should have a spot in each collection. This piece was legal tender in the United States until 1857. Many of the old collections I have appraised over the years have had at least one specimen of the Pillar Dollar in them. The stories about these pieces are legendary, from pirates to shipwrecks. In recent years a fairly large number of them have been recovered from the depths of the ocean. They are still priced within reason and are worthy of a place in your colonial collection.

Over the years a number of hoards of colonial coins have been found. One group called the "Castine Deposit" was discovered in Castine, Maine in 1840. This contained approximately 2,000 pieces of old Spanish dollars, French, Belgian, and Portuguese coins, and had about 25 to 30 Massachusetts Pine Tree shillings and sixpence pieces. Many of the pieces were in excellent condition, giving numismatists and historians the opportunity to study the varieties and types which came to light.

Other pieces have been unearthed in various areas of New England, sometimes by bulldozers, sometimes by plows. They have even been found in the eaves of old farmhouses. Two of

the largest finds of Pine Tree coins were made in Roxbury, Massachusetts and Exeter, New Hampshire.

Again I repeat, it is timely to start your collection of colonial coins now. Do not delay, as many sources are drying up and dealer stocks will become weaker. These coins are part of the heritage of our great country, are relatively inexpensive, and are fascinating to collect.

Question and Answer Forum

We invite our readers to submit questions pertaining to any aspect of numismatics within the purview of this catalogue. The questions of the most general interest will appear in this column.

QUESTION: Is the current legend that President George Washington supplied silverware to make 1792 half dismes correct? — A.E.L., Kansas City, Missouri

ANSWER: It is extremely doubtful that George Washington would have contributed silver in wrought or crafted form to be melted down to make coins. It would be more reasonable to assume that he would have contributed silver in bullion form or guaranteed a personal bond to enable the Mint to acquire silver bullion. During the early days at the Mint the various officials had to post personal bonds which in some instances were of unreasonably high amounts.

Possibly to expedite the situation President Washington might have made some sort of a guarantee for the bulk silver from which the approximately 1,500 1792 half dismes were struck. This would not have amounted to a great deal of money in any event.

Concerning the 1792 half dime Don Taxay notes (cf. page 187 of *Scott's Encyclopedia of U.S. Coins*) that "President Washington himself deposited the first silver and was repaid with 1500 half dismes, which he presented to his friends here and abroad."

A LETTER from C.R.B. of Louisville, Kentucky:

Dear Dave: Since I am now 66 and retired I suppose I can address you by your first name! I greatly enjoy and learn quite a bit from your column in "Coin World." I never had the time to devote to the real study of coins so I am very interested in your informative column. I am really amazed at your knowledge of coins. I have collected since 1917 so I find much fun in looking over my coins to see if I have any you mention. I think your recent discussion of Longacre's preference for italic or slanting 5's [such as in the 1855 large cent] is interesting. I have examined some of my other 1855 coins and find that they have italic 5's — with the 5's of my 1855-S \$5 gold piece slanting even more than on the 1855 cent. By the way, the enclosed clipping from "Coin World" might be interesting to you, knowing as I do of your interest in colonial coins:

"Found Shillings: A hoard of 6,000 New England shillings 'scarcely discolored' was found in jars by William Brown, according to the July 21, 1737, Boston Weekly Newsletter."

ANSWER: Thank you for your nice comments. The interesting thing about Longacre's italic 5's is that only the 5's in the 1855 dates are italic; the 1 and 8 are of upright form as: 1855. To be consistent the entire date should either be 1855 or 1855. The 1856 large cent variety with just the 5 italic appears even more inconsistent: 1856.

A LETTER from T.S. of Alexandria, Virginia:

I have just finished reading your Rare Coin Review No. 17, and I must say that your catalogues are collectors' items in themselves. I enclose an order for several items from this latest issue, and I know that they will be in line with the other fine items I have received from you in the past.

I read your article, "Our Changing Hobby — A Dealer's-Eye View," and it prompted me to think back to the early 1950's when the prices of coins were low indeed. I too was a high school student in those days in an average-size town in middle New Jersey. I too went from bank to bank in search of scarce coins to fill up my coin albums. I collected the various series from Indian cents through Washington quarters.

Buffalo nickels were easy to find in circulation then. Most dates were in the 1930's, but there were also a goodly number from earlier years, although earlier pieces were in lower grades. 1932-D and 1932-S Washington quarters were not uncommon, and I found quite a few lower-grade ones among the many bank rolls I examined.

Once in a great while I would come across a well-circulated Indian cent. It was not difficult to fill up any of the coin sets with the exception (as you pointed out) of the really rare issues in each series. Liberty nickels were also fairly easy to find, with the exception of 1883 with CENTS, 1885, 1886, and 1912-S.

Today I wish that I had spent more time with coins and had purchased more scarce issues when prices were lower. However, as you have stated we must look ahead and not back. The future of coin collecting seems very bright, and with greater numbers of people jumping on the coin bandwagon we can expect a greater hobby to come out of it all — with monetary appreciation to reward us for our efforts. With the economic unrest we are now experiencing throughout the

world (and God only knows where it will all end), there is very little in the way of an investment vehicle that the average man can afford today. Coins, I feel, are such a vehicle.

FOLLOW-UP: We have always been intrigued by the mention in numismatic literature of a large cent having been struck at the New Orleans Mint in 1837. We have invited further information on this in our "Coin World" column and also from time to time in our catalogues. Recently Dr. Warren A. Lapp, editor of "Penny Wise," periodical publication of the Early American Coppers Club (EAC), sent the following information to us. We quote from Dr. Lapp's letter and enclosures:

"In reference to your request for information on the large cents struck at the Mint in New Orleans, I am enclosing some copies of pages from earlier issues of *Penny Wise* which will answer your question.

"It should be noted also that Walter Breen in his monograph *The U.S. Minor Coinages 1793-1916*, page 13, lists the large cent struck at the New Orleans Mint as being the 1836 Newcomb variety 7, State IV, and notes that it was struck in 1837. However, since the 1836 N-7 was struck from the same obverse die as the N-6 for that year, the variety number variation is only one of semantics.

"Since the publication of the Breen monograph, it has been reported by Julian and others that only one die, the obverse for the 1836 N-6, was found in one of the presses when they arrived at the New Orleans Mint. Consequently, if any large cents were struck at the New Orleans Mint, they most likely were uniface and the quantity struck was extremely limited.

"I very much enjoy your column in *Coin World* and am grateful for your catalogues."

Dr. Lapp's enclosures consisted of a "Penny Quiz," by Capt. John D. Wright, which appeared in *Penny Wise*, Vol. 2, pp. 14-15, January 15, 1968, and an article, "Surviving Mementoes of the First U.S. Mint," by Dr. Lapp himself in Vol. 3, p. 116 (July 15, 1969) of the same publication.

The Capt. Wright quiz asked as question number eight: "What large cent was struck, not at the Philadelphia Mint, but at one of the six branch mints, and at which branch mint was it struck?"

The reply was given as: "The 1836 N-6, State IV, was struck at the branch mint in New Orleans in 1837, using dies sent from Philadelphia for setting up and adjusting the presses for the new branch mint there. These presses were later used in 1838 for the coining of dimes and half dimes. This subvariety of large cent, the 1836 N-6 IV, bears no mint mark, of course. W.E. Johnson lists this coin as rarity 6, but his rarity studies are as yet incomplete."

The July 15, 1969 issue of *Penny Wise* updates the situation: "More recently an article by R.W. Julian, titled 'Dimes First Flow in New Orleans,' appeared in the *Numismatic Scrapbook Magazine* of September 1968. In the article Julian reports that one of the coin presses sent to New Orleans was found to contain an obverse die for an 1836 cent. No reverse die was found, however. Julian suggests that the press might have been an old one which formerly had been used at the Philadelphia Mint or that it had been tested there before being shipped to New Orleans. In any event, there is some question as to whether or not the 1836 N-6, State IV was struck in New Orleans. Statistics for the New Orleans branch mint's output, as cited by Julian, do not record any striking of cents."

HE TRIED OUR 'COMPARISON TEST'

"When I received my first copy of the Rare Coin Review I was tempted not to order several things which were on my want list, for I saw the same coins offered for several dollars less in — [a leading numismatic publication — Ed.]. I ordered the same coins from you and from the other dealer, thinking I would return yours as per your advertised 'Comparison Test' once I had your coins and the other dealer's side-by-side. Both shipments arrived on the same day, and I compared the coins. This took me only about two seconds to do, for yours were Brilliant Uncirculated, as you advertised, and the others were barely AU. So your 'Comparison Test' won with flying colors — and you now have another steady customer: me! I was puzzled at first, but now I know what's what." — an unsolicited comment from H.E. of Chicago, Illinois

The following article recently appeared as a "Who's Who in Numismatics" feature in Numismatic News, published by Krause Numismatic Publications, Iola, Wisconsin. This adaptation is used with the permission of that organization. The text is by Ed Reiter of the Numismatic News staff. The sketch is by Bill King.

Q. David Bowers wasn't exactly born with a silver spoon in his mouth—but he did have a silver dollar in his baby book.

"I found out about it while looking through family artifacts," Bowers says. "An 1886 silver dollar was listed as one of the gifts I received. I don't know whatever happened to it, but that was my first coin."

It was the first of a great many, for Bowers went on to become one of the nation's biggest and best-known coin dealers. The coin business he and his partner, James F. Ruddy, now operate in Hollywood, California, is a multimillion-dollar-a-year operation.

Bowers didn't jump straight from crib to bourse floor. He did become interested in coins at an early age, however—and once he got his feet wet it didn't take him long to advance from novice collector to experienced dealer.

"I started collecting coins in 1953, when I was 14," he

recalls. "I had started collecting rocks and minerals previously, and one day, while I was visiting Robert Rusbar, our local tax collector who shared my interest in that hobby, he showed me his coin collection, too.

"I found the whole idea terribly fascinating. The prospect of finding a rare date Lincoln cent in circulation absolutely amazed me. So I got some Whitman folding boards and started picking cents from circulation."

Bowers was living in Forty Fort, Pennsylvania, at the time. He had been born in Honesdale, Pa., and also had lived in Baltimore for a short time during early boyhood. Forty Fort, though, was the town where he grew up.

Within months after taking up coins as a hobby he had found enough—and learned enough—to become a vest-pocket dealer. He borrowed a few hundred dollars from his father to help get his business off the ground. Then he began running advertisements in local newspapers and hobby publications.

"At first I had to take the bus when I went to see customers on the other side of town," he recalls. "Or my father had to drive me. I wasn't old enough to drive; you had to be 16."

By the time he reached his senior year in high school his business was flourishing, and coins were his principal extracurricular activity. He didn't neglect his studies, though: he was a finalist in the first National Merit Scholarship competition in 1956 and went on to win further academic distinction and a degree at the Pennsylvania State University.

Bowers attended his first American Numismatic Association convention in 1954 in Cleveland, and was thoroughly impressed with the proceedings. The following year, at the age of 16, he impressed a lot of other people by getting his own bourse table at the ANA convention in Omaha. His stature as a national hobby figure has been growing ever since.

Bowers first joined forces with Jim Ruddy in 1958.

"Jim's parents lived near Forty Fort," he recalls, "and one day he came down to see me to buy some coins. I had continued my coin business while attending college, and Jim was operating the Triple Cities Coin Exchange in Johnson City, New York.

"We found that our talents and interests blended quite well, so we combined our interests and formed the Empire Coin Company in Johnson City. I handled my part of the business from college until 1960, when I graduated, and then I moved to Johnson City."

From almost the beginning, Bowers' business had been oriented primarily toward mail orders. Empire Coin Company followed the same pattern, and in the early 1960's—when the hobby in general and the mail order coin business in particular enjoyed an unprecedented boom—Empire became one of the nation's leading companies.

Paramount International Coin Corporation acquired Empire in 1965, and for the next year Bowers was associated with Paramount in Englewood, Ohio. At that time he left the business side of coins (but continued his extensive numismatic writing) to indulge in another one of his great loves: automatic musical instruments.

He and Terry Hathaway of Santa Fe Springs, California, formed Hathaway and Bowers, Inc.—a company which grew in less than two years into the world's largest music box dealer.

"I became interested in automatic musical instruments in 1960," he relates. "It was at an antique show. I saw this old Regina music box, made around 1905, and decided I had to have it. So I bought it and this became my hobby."

Coins, he says, are strictly his business now, but automatic musical instruments—music boxes, player pianos, nickelodeons, and the like—are still a hobby, business ties notwithstanding.

Bowers has given up his association with Hathaway. Four years ago he formed a new coin dealership—Bowers and Ruddy Galleries, Inc.—as a continuation of his relationship with Jim Ruddy. He's still active on the business end of music boxes, though, as co-owner (with Claes O. Friberg) of the Mekanisk Musik Museum in Copenhagen, Denmark—the largest museum in Europe for such instruments and one of Denmark's prime tourist attractions.

One of the greatest assets Bowers has brought to his hobbies—and businesses—has been his thirst for knowledge.

"I have a fantastic interest in everything I get involved in," he declares. "I read voraciously—every bit I can—and the more I read the more interested I get."

This interest is reflected in the vast reference library Bowers and Ruddy Galleries maintains.

"We have thousands of volumes," Bowers reports. "Whenever we hear about a book we feel may be significant, we go out and buy it. Just the other day we bought \$200 worth of books.

"As far as I'm concerned, the best expenditure we can make is for a useful reference book."

He himself has made many important contributions to numismatic literature, for apart from coins and music boxes, writing has been the number one hobby in his life.

His contributions include a book on U.S. half cents, a book of reminiscences and reflections titled "Coins and Collectors," and the weekly columns he has written for Coin World since the early '60's. His work has appeared in every other major publication in the hobby, including Numismatic News, Weekly and Coins Magazine.

He has done his share of writing about music boxes, as well, and his 1,008-page "Encyclopedia of Automatic Musical Instruments," recently selected by the American Library Association as one of the outstanding reference books of our time, is considered by collectors to be the standard source in that field.

His writing ability has come in handy from a business standpoint, too: he takes personal charge of preparing the Rare Coin Reviews issued periodically by Bowers and Ruddy Galleries, and also strings the words together for the sale catalogues of the American Auction Association, Inc., the company's sister firm.

He's a skilled and widely sought speaker, also, and has participated in numerous educational forums at coin shows around the country.

Bowers travels extensively—throughout the United States and abroad, too. He chose Southern California as his base of operations, he says, because it offers "an ideal combination of coin activity and a pleasant climate."

His two sons, Wynn, 11, and Lee, 9, have developed an interest in coin collecting and often attend conventions.

Q. David Bowers has made quite a name for himself in the realm of coins. One thing that puzzles many, though: What does the "Q" stand for?

"It stands for Quentin," Bowers says.

"I was named after my father, but I decided to use my middle name so as not to cause confusion in the family."

There's no confusion about where Dave ranks in the "family" of numismatists. That bus he caught in Forty Fort has taken him right to the top of the heap.

The Terrell Collection Auction

TERRELL COLLECTION AUCTION REFLECTS COIN MARKET STRENGTH

The Terrell Collection Sale

For two days—May 18th and 19th—the attention of the numismatic world was riveted on the American Auction Association's sale of the Terrell Collection in Hollywood, California.

Under the auctioneer's hammer went 1,570 lots of choice and rare coins of the United States and other countries. Enthusiastic bidders from all over America, Europe, and Asia competed to acquire the many superb pieces in the sale. When all was said and done, over \$600,000.00 worth of pieces had found new owners, and many new price records had been set.

The catalogue noted that: "The Terrell Collection was formed over a period of years—beginning years ago when choice coins were more plentiful than they are now. Emphasis was placed on quality, with price being of secondary importance. The result was the assembly of one of the finest collections we have ever had the privilege of offering for sale; a collection replete with many gems, great scarcities and rarities, and other desirable pieces. As the individual catalogue descriptions indicate, there are many pieces here which have not appeared on the market for many years and which will probably not appear again on the market within the foreseeable future."

United States Half Cents and Cents

The sale opened at 7 o'clock Friday evening in the orange- and beige-decorated Blossom Room of Hollywood's famous Roosevelt Hotel—the scene of many outstanding events in the past, but perhaps none so important to the numismatist as the Terrell Collection sale!

First on the block were several beautiful half cents. For the guidance of readers who have a copy of the Terrell Collection catalogue we give lot numbers in brackets, [4] for example, throughout this article. A 1793 half cent [1] described as "very beautiful EF-AU" started things with a realization of \$1550. Next on the list was a splendid AU example of the

famous 1 over 1 variety of the 1797 half cent [2] which set a new record price at \$1850. Following on the heels of that was a lovely glossy brown Uncirculated 1800 half cent [3] which was knocked down at \$450. Later in the sale a choice Brilliant Uncirculated 1835 half cent [119] fetched a new record price of \$225.

"Large cents appeared in several places throughout the Terrell Collection sale. An Extremely Fine 1793 Chain cent [6] fetched \$3,500, followed by an EF 1793 Wreath [7] at \$1,250. A 1797 cent [9], an Uncirculated example from the Nichols Find, went quite reasonably at just \$850. An 1814 brown Uncirculated cent [10] commanded a new level at \$1,600. Nearly 150 Uncirculated large cents of the 1816-1857 years [appearing in the sale as lot numbers 1106 through 1250 inclusive] brought prices mainly in the \$100 to \$200 range, although some scarce and early issues went higher.

Several outstanding small cents in the Terrell offering set new price records. An 1858 large letters flying eagle cent in BU grade, a gem striking [14], set a new level at \$425. An 1859 Brilliant Uncirculated cent [15] fetched \$275. An 1880 Proof Indian cent [17] cost the buyer \$95.

Considerable attention was focused on the auctioneer, George Bennett, as lot 189, a specimen of the 1888/7 Indian cent, came up for sale. The coin, described as "attractive red and brown Uncirculated with prooflike surfaces in areas," was one of the two specimens originally discovered by James F. Ruddy and announced to the numismatic fraternity via news articles in 1970. The previous auction record of \$2,600 for one of these pieces was quickly shattered as the coin sold for \$4,000 to a prominent midwestern numismatist.

2c, 3c, and 5c Pieces

The question "what is it worth?" concerning an 1865/4 overdate two-cent piece [18] in choice Uncirculated grade was answered when the piece found a new home at \$450. The consignor to the sale must have been delighted for the piece was, in the cataloguer's words, "acquired years ago as a *regular* 1865 by the owner of the Terrell Collection."

Nickel three-cent pieces in the sale continued the strength of other series. An especially sharp 1868 [214] BU piece fetched \$90. An example of the rare proof-only 1878 [250] brought \$250., and a scarce Proof 1886 [19] sold for \$140.

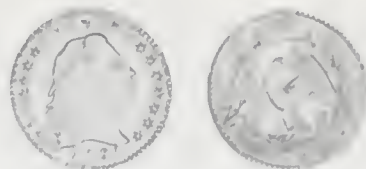

In the silver three-cent series a BU 1852 [20] at \$110 and another example [225] of the same date at \$135 made new levels for this date. A beautiful 1862/1 overdate [228] went to a successful bidder at \$230.

Prices realized for nickel five-cent pieces included \$185 for a sharply struck 1866 [230] with rays; \$225 for a Proof 1879/8 [236]; \$140 for a BU 1881 [237]; \$60 for an 1883 Liberty nickel without CENTS [238] in BU grade; and \$23 each for two examples of the popular 1938-D over S "overmintmark" [249 and 250].

Half dimes were well represented throughout the American Auction Association sale. Lot 28, a BU 1795, fetched \$2000.

Lot 46 – \$17,000

Lot 28 – \$2,000

Lot 1022 – \$16,000

Lot 36 – \$4,600

Lot 395 – \$4,800

Lot 58 – \$16,000

Lot 844 – \$2,300

Lot 59 – \$2,300

Lot 615 – \$4,000

Lot 817 – \$675

Lot 897 – \$2,600

Lot 75 – \$6,800

Lot 69 – \$1,700

An 1800 [30] in similar grade went for \$2,600. An 1837 Liberty seated half dime without stars [32] realized \$460. A little later on in the sale another 1837 [645] was knocked down at \$440—thus fairly definitively establishing a current market value for select examples of this popular issue. A number of choice specimens of Brilliant Uncirculated bust type half dimes were represented in the Terrell offering and mostly sold in the \$200 to \$250 range. A BU 1853 half dime with arrows [34] broke a new price barrier and realized \$275.

Throughout the sale a number of purchases were made by leading dealers who flew to Hollywood from all over the globe to attend the sale. It has been said that dealers often sense the strength of the market a few months before the general public does. If this is the case, good market times are ahead! Dealer bidding was enthusiastic as they strove to acquire pieces for commissions they were representing and also for their own accounts.

United States Dimes and Quarter Dollars

Dimes in the Terrell sale included a Brilliant Uncirculated 1796 [36] at \$4,600; an Uncirculated 1820 [654] at \$1,050; a prooflike gem 1827 [37] at \$1,700 (to a major buyer who attended the sale from New York and who considered this to be one of the nicest of his many purchases at the event); a prooflike 1830 [38] at \$775; and two 1837 without-stars pieces at \$900 each [39 and 661].

Among later Liberty seated issues we might mention an Uncirculated 1844 [284] at \$660; an 1853 with arrows [40] in the same grade at \$375; an 1866 BU [662] at \$275; an 1873 with arrows BU [42] at \$500; an 1874 BU [663] BU at \$525; and an 1880 BU [43] at \$250. A specialist in the dime series carried home a gem example of the 1870-S [287] at \$1,200.

A choice BU 1901-S dime [298] fetched \$840. The year 1942 is remarkable in the dime series for two overdates: the 1942/1 (struck at the Philadelphia Mint) and its Denver counterpart, the 1942/1-D. Choice Uncirculated examples of these are rarely offered for sale. The Terrell Collection sale represented an unusual opportunity, and both of these coins set new records when they came up on the auction block. Lot 308, the 1942/1, brought \$960. Lot 309, a 1942/1-D, fetched \$2,000 (against a mail bid of \$2,400, thus saving the mail bidder \$400, for the next underbid was \$1,900).

Twenty-cent pieces of interest included an 1875 Uncirculated [672] at \$575; an 1875-S [673] in the same grade at \$400; an 1877 [674] Proof at \$800; and an 1878 [45] Proof at \$725.

Among quarter dollars the 1796 has always been a landmark. The piece has three qualities which give it a special appeal: (1) It is the first year of issue of the quarter denomination. (2) It is the only year of the design type with the small eagle reverse. (3) It has a very small mintage. The Terrell Collection specimen [46], described as magnificent Uncirculated with prooflike surfaces on both obverse and reverse, promised to be one of the highlights of the sale. And indeed it was! The coin sold for \$17,000 into one of America's finest private collections.

Prices for early bust type quarters were mixed and ranged mostly in the \$900 to \$2000 range, the latter figure being for a Brilliant Uncirculated 1825/3 [48]. Among Liberty seated quarters an 1853 with arrows and rays [50] in BU grade fetched \$775, and a coin of the following year, 1854 [679], brought a new record price of \$650. A Brilliant Uncirculated 1873 quarter with arrows [52] sold for \$500.

"The reference books will have to be rewritten in view of the Terrell Collection results," noted a spokesman for the American Auction Association. Prices such as \$270 and \$300 realized for two 1879 BU quarters [689 and 690], \$300 for a BU 1881 quarter [691], \$375 for a BU 1882 [692] and \$360 for another of the same date [693], not to mention \$430 for a BU 1885 [695] and \$400 for a BU 1886 [696] point this out dramatically!

U.S. Half Dollars

Half dollars appeared in several places throughout the large illustrated sale catalogue. Record prices established included \$16,000 for the famous Westwood Collection example of the 1797 half dollar [58] in AU grade, one of the very finest of this rare year known to exist. \$4,800 for a BU 1801 [395], \$2,300 for an Uncirculated 1803 [398], and \$2,300 for an Uncirculated 1806 [59] are other examples.

Half dollar specialists will long remember the spectacular collection of that series which appeared in the Terrell Collection sale beginning with lot 392. Particularly memorable are the prices fetched by Liberty seated half dollars in choice condition. The following dates were all described in the catalogue as being Uncirculated: 1841-O [476] \$230; 1842 small date [477] \$500; 1845-O without drapery [487] \$650; 1846 small date [488] \$400; 1846 tall date [489] \$700; 1852-O [504] \$1,050; 1859-S [524] \$412.50; 1862-S [532] \$350; 1864 [535] \$360; 1870-S [550] \$500; 1871-CC [552; described as "with some bagmarks in field"] \$3,200; 1873-S arrows [561] \$1,700; 1874-CC arrows [563] \$2600; 1874-S arrows [564] \$900, plus several hundred dollars apiece for scarce Uncirculated issues of the 1880's.

Silver Dollars

Among silver dollars we can cite record prices for \$3,600 for an AU 1795, type of '94 [70]; \$3,600 for a 1795 small eagle [71] in BU grade with some light rubbing; \$4,500 for a sharply-struck Uncirculated 1802 [72]; \$675 for a beautiful Proof 1866 [925]; and \$6,800 for the extremely popular and very rare Proof 1895 [75] Morgan issue.

Trade dollars were likewise very strong in the sale, with Uncirculated "S" mintmark coins of common dates bringing mostly in the \$250 range, and with scarce dates and Proofs going higher.

Gold Coins

Gold coins in the American Auction Association event were highlighted by two prime rarities: the 1841 quarter eagle and the 1876 \$3 issue.

The 1841 quarter eagle, affectionately called "The Little Princess" by cataloguers over the years, was in Very Fine grade. Only six specimens are known in collectors' hands. The coin, sold as lot 1009, fetched \$10,050 and is now a part of a large eastern collection.

Lot 1002 was described as: "1876 \$3 gold. Brilliant Proof, a gem. This is the finest 1876 \$3 we have ever owned. Usually Proofs of this date are seen in impaired form. The offering of a gem is very, very unusual..." This magnificent showpiece quickly found a new owner at \$16,000 — a new record price for the rare 1876 date.

Other United States Issues

hardware supplies) for use in the firm's 1872-1972 centennial observation, featured many different regular and pattern issues.

A beautiful Proof example of the 1872 pattern Amazonian half dollar [615] was knocked down for \$4,000, thereby beating by \$900 the previous price record of \$3,100 set a year earlier in the American Auction Association sale of the Armand Champa Collection. The 1872 pattern Amazonian silver dollar went reasonably for \$4,500. A string of 1872 Barber pattern designs for gold coins commenced with an aluminum striking of an 1872 gold dollar [622] at \$700 and concluded with an aluminum impression of Barber's pattern double eagle [630] at \$1,500.

Coins of the World

Coins of the world in the Terrell Collection sale comprised many different issues. Outstanding was a specialized collection of pieces with the portrait of Leopold I, "The Hogmouth," of the Holy Roman Empire (Austria). Dealers and collectors from Germany, Austria, Japan, England, and other countries competed with their American brethren to set new price levels.

Outstanding among the Leopold I coins were a double taler of Styria [1286] at \$1,325; a 1684 taler of Silesia [1290], a 1695 broad taler of Hungary [1305], a beautiful undated double taler of Nuremberg [1319] with a city scene on the reverse at \$4,000, an undated double taler of Tirol [1323] at \$1,100, and a very rare triple taler of Tirol [1326] at \$1,300.

An undated (year 1890) taler of Kwangtung Province of China [1378] fetched \$220; a 1917-B Proof Egyptian 20 piastres [1386] sold for \$310; and an undated broad medallic taler of Lubeck [1401] sold for \$225.

The Terrell Collection offered some choice English crowns, the likes of which had not appeared on the market in a long time and which are not likely to appear again for a great duration. A 1656/4 Commonwealth crown [1427] was knocked down at \$650, followed shortly by a 1706 crown in EF grade [1429] at \$760. A 1732 pattern issue of George II [1431] fetched \$1,400. The 1817 "Incorrupta" crown of George III [1432] set a new level at \$1,775. An 1825 pattern silver crown of George IV [1434] realized \$1,450.

Particularly outstanding were three pattern crown issues of William IV. 1831 crowns are rare even in their most "common" form — as issued in the specimen Proof sets of that year. The Terrell Collection featured three very rare varieties, and the competition for them was intense. An 1831-dated variety with the name of the engraver, Wyon, spelled out [1435] sold for \$4,000. Two undated 1831 crowns [1436 and 1473] realized \$7,700 and \$7,650 respectively.

Close on the heels of the 1831 pieces was an 1846 Gothic crown [1438], issued a year earlier than most Gothic pieces (which are dated 1847). This 1846 coin, a splendid Proof, found a new home at \$3,650. A 1910 pattern crown [1443] brought \$1,800, and a complete 1746 silver Proof set [1445] fetched \$2,800.

A date run of Japanese yen set some new values, including \$450 for a piece of 1870 [1458], \$1,400 for an 1874 issue [1459], and \$2,900 for the rare 1879 [1460].

An 1841 Russian set of three coins commemorating the marriage of the future Alexander II to Maria brought \$7,400, a new record. An 1888 15-kopec piece [1516], described as one of only seven pieces struck, found a buyer in enthusiastic bidding competition at \$520. Gold coins of the world saw a number of new record prices, including \$1,650 for an 1851

gold eight escudo piece of Bolivia [1545] and \$1,800 for a very rare Proof 1869 5 drachmai pattern issue of Greece [1558].

In Conclusion

The main consignor to the Terrell Collection sale, interviewed shortly after the event, had this to say:

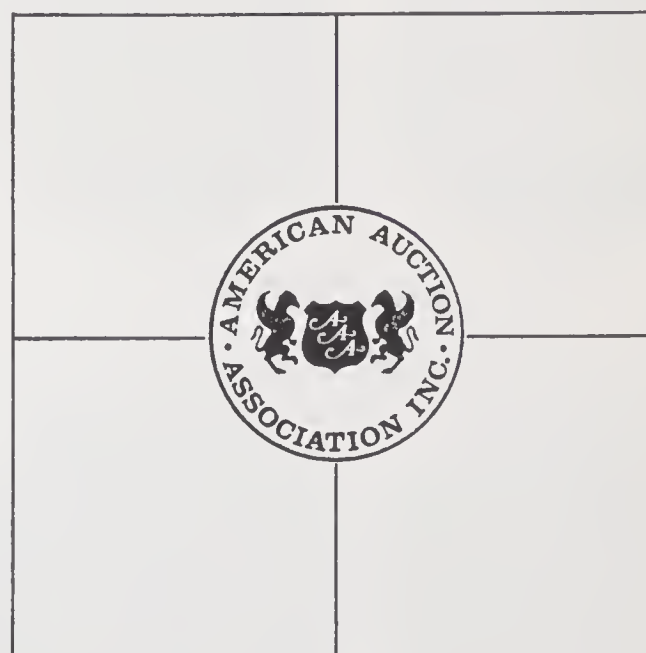

"Naturally I am delighted with the sale. The coins were fun to collect and to own, and I hope that the new buyers share my same enthusiasm for them. I bought the coins primarily as an investment, however—and now my problem is that it is difficult to think of any other investment which will compare to what these coins have done. Right now I am thinking of re-entering the coin field to build up another collection.

"In reviewing the prices realized for my coins it is very obvious that any pieces which were of choice or selected quality brought high prices—record prices in most instances."

Following one of our additional questions the owner then continued by saying: "You ask me what advice I might have for other buyers, and here it is: Buy coins of selected quality, and buy from established dealers. I believe you say this in your own advertisements. You won't go wrong."

The American Auction Association is affiliated with Bowers and Ruddy Galleries, Inc. and is owned by Q. David Bowers and James F. Ruddy. A copy of the Terrell Collection catalogue plus a list of the prices realized can be had for \$5 while supplies last.
